## BRIEF PROFILE OF DIRECTORS

**Shri Pankaj Jain**  
Chairman (Non-executive)

Shri Pankaj Jain (DIN:00675922) is an IAS Officer of 1990 batch (Assam Meghalaya) cadre.

Shri Pankaj Jain is Secretary in the Ministry of Petroleum and Natural Gas.

**Shri Akshay Kumar Singh**  
Managing Director & CEO

Mr. Akshay Kumar Singh (DIN: 03579974) (aged 61 years) is a veteran of the Oil and Gas industry in India. His career spanning 37 years has wide-ranging experiences across design, engineering, planning, execution and O&M of complex pipeline systems and process plants. He has an unblemished track record of delivering challenging, complex and large size transnational as well as cross-country pipeline projects of national importance.

Mr. Singh is the Founder-Chairman of M/s Petronet Energy Limited (PEL) and Petronet LNG Singapore PTE Ltd (PLSPL), wholly owned subsidiaries of Petronet LNG Ltd (PLL). He has played a pivotal role in formation of these companies and marking PLL's presence in International Market. He is also Chairman of Petronet LNG Foundation (PLF). He is Director on the Board of Adani Petronet (Dahej) Port Pvt Ltd and India LNG Transport Co (No 4) Pvt Ltd (Joint venture companies of PLL).

Prior to joining Petronet LNG Limited, he was Director - Pipelines in IndianOil Corporation Limited. Under his leadership, India's first transnational multiproduct hydrocarbon pipeline from India to Nepal (Motihari to Amlekhganj) was completed 8 months before schedule and was appreciated by Hon'ble Prime Ministers of both countries. He also set up the infrastructure (for IOCL) to execute City Gas Distribution projects in 17 Geographical Areas, at an estimated capex of INR 13,873 Crores.

Before joining IndianOil, Mr. Singh served as Executive Director in GAIL India Limited. In a career journey of over 30 years, he worked across project development, project execution, corporate HSE, R&D and Risk Management.

He ensured the completion of the 1000 kms Dhabol – Bengaluru (DBPL) and 700 kms Dahej – Uran / Dhabol – Panvel (DUPL/DPPL) Natural Gas Pipelines in record time of 15 and 11 months, respectively, which was appreciated by the State and Central Governments. He also led a team that derived the formulation of a unified pool tariff model for transportation of Natural Gas across the country, for submission to PNGRB. From 1996 – 2002, he was instrumental in developing Mumbai's City Gas Distribution infrastructure, while working for Mahanagar Gas Limited. In 2015, he was tasked to lead a team that identified opportunities to maximise GAIL's annual profitability, and that continues to deliver substantial impact.

Mr. Singh has also played a pivotal role in the formation, execution and roll-out of key joint-ventures to develop hydrocarbon pipeline networks of national importance; (i) Indradhanush Gas Grid Limited (IGGL), having equity participation of 20% each by IOCL, GAIL, ONGC, NRL and Oil India Ltd, for execution of 9250 kms long natural gas pipeline connecting all state capitals of 8 North East states, having capex of INR 9265 Crores; (ii) IHB Limited, a consortium of IOCL (50%), BPCL (25%) and HPCL (25%) for execution of one of world's longest LPG pipeline (2800 kms) namely Kandla-Gorakhpur (KGPL) having capex of INR 10,888 Crores.

He also served as Chairman of IHB Limited and as Director at Talcher Fertilizers Limited as well as Andhra Pradesh Gas Distribution Corporation Ltd. Mr. Singh is a Mechanical Engineer from MIT, Muzaffarpur and Post Graduate in Turbo Machinery from South Gujarat University.

**Shri Vinod Kumar Mishra**  
Director (Finance) & CFO

Shri Vinod Kumar Mishra, Director (Finance) (aged 59 years), Petronet LNG Limited (PLL) (DIN: 08125144) joined PLL in April 2018 and has rich experience of about 3 decades in the areas of Corporate Finance, Direct and Indirect taxes, Treasury Management, Natural Gas Marketing and Hedging etc.

He is a Chartered Accountant and also holds degrees in Law and MBA (Finance). He is also Chairman, Hydrocarbon Committee, PHD Chamber of Commerce and Industry (PHDCCI).

He has worked in GAIL (India) Limited a Maharatna Company, for more than 27 years. In his professional career in GAIL, he has successfully handled Project Financing of GREP Pipeline Project and Construction of two LPG plants and was also involved in handling O&M activities of NCR Region. Through, his profound knowledge in Natural Gas Contracts, he has been instrumental in developing various Natural Gas Hedging strategies that resulted in immense economic benefit to the company.

He was instrumental in structuring the Company's operations in tax efficient manner, handled tax scrutiny assessments, transfer pricing assessments and assessments at appellate levels and has also filed Bilateral Advance Pricing Agreement with Income Tax Authorities for the Natural Gas Sale and Purchase Agreements between GAIL (India) Ltd. and its overseas wholly-owned subsidiaries. He had successfully represented various litigations under Direct & Indirect Tax, bringing in favourable decisions for the company.

Apart from above, he was involved in Financial Planning & Analysis, Contract Management of Natural Gas & LPG Sales & Purchase Agreements, Indirect Taxation matters (including assessments and litigation before various Appellate Authorities, Tribunals and Courts) and also successfully handled Internal, Statutory & CAG Audits as HoD (Finance) at various locations, before moving to Corporate Finance, wherein he has successfully handled Finance & Accounts, Treasury, Provident Fund, Superannuation Fund, Insurance, Direct & Indirect Tax matters at Corporate level.

He also held the position of Director in GAIL Global USA, INC, Houston (USA), a wholly owned subsidiary company of GAIL(India) Limited, having global footprint in the Liquefied Natural Gas (LNG) trade.

**Shri Pramod Narang**  
Director (Technical)

Shri Pramod Narang, (DIN: 07792813) (aged 59 years) a 1984-batch Mechanical Engineering graduate from Karnataka Regional Engineering College (KREC), Surathkal (now NIT, Surathkal), took over as Director (Technical) at Petronet LNG Limited (PLL) in November 2020. Presently, he also holds the position of nominee Director in Petronet Energy Ltd, Petronet LNG Foundation, Petronet LNG Singapore Pte Ltd., the wholly owned subsidiary companies of PLL. Additionally, as one of the nominee Directors of PLL, he is on the Board of Adani Petronet (Dahej) Port Pvt. Ltd., a JV company of PLL and Adani Ports and Special Economic Zone Ltd., which primarily handles various solid cargoes at Dahej, Gujarat.

Upon joining PLL, he prioritised to achieve overall improvements in operations and maintenance activities of Dahej and Kochi terminals. These efforts resulted in setting new records for highest-ever daily R-LNG send-out and highest-ever LNG truck loading numbers at both the terminals, in a period during which the entire industry had largely been impacted

by the covid pandemic and its aftereffects. Through his focused approach, he has also been playing a pivotal role in steering the expansion plans of the company. These include construction of two additional LNG tanks, setting up of the third berth, augmentation of re-gas capacity from 17.5 MMTPA to 22.5 MMTPA, enhancing the LNG truck loading capacity, etc. all at Dahej. At Kochi, besides augmenting the capacity of LNG truck loading capacity, he has been steering implementation of a modified Gassing Up and Cooling Down (GUCD) scheme, which upon commissioning is likely to significantly enhance the efficiency of present GUCD operations. All these important projects are on track with regards to the stringent timelines envisaged for their implementation. Besides, he is continually strengthening company's efforts towards venturing into new business areas and diversification initiatives, one of the most important being expediting the pre-project activities of the proposed 750 KTA PDH and 500 KTA PP project at Dahej.

Prior to joining PLL, he commenced his career with the Pipelines Division of Indian Oil Corporation Ltd. (IOCL) in 1985 as a Graduate Engineer Trainee, wherein, during a stellar career spanning over 3 decades, he rose to the rank of Executive Director in the company. At IOCL too, Shri Narang made immense contributions in various fields like design, detailed engineering and execution of cross-

country oil and gas pipeline projects, setting up of mega oil and gas terminals, operation & maintenance, corporate planning and projects monitoring functions, contracts & purchase, etc. He played a crucial role in execution and commissioning of India's first trans-national petroleum products pipeline from Motihari in Bihar to Amlekhganj in Nepal, a project of strategic importance from the country's perspective. During 2019-20, as head of Contracts & Purchase function, he is credited with placing highest-ever works and purchase orders along with achieving a record reduction in the lead time, which significantly expedited the implementation of various ongoing projects in the company.

Members can login and join 15 (fifteen) minutes prior to the scheduled time of AGM and window for joining shall be kept open till the expiry of 15 (fifteen) minutes after the scheduled time.**
4. Members are requested to:-
  - quote their Folio / Client ID & DP ID Nos. in all correspondence with the RTA / Company.
  - register their e-mail IDs / PAN / Bank Account Details with RTA / Company / Respective Depository Participants (DP).
  - visit the website of the Company to follow updates on AGM and the Company .
  - note that in case of joint holders attending the meeting, only such joint holder whose name is first in the register of member will be entitled to vote.
5. Institutional / Corporate Members (i.e. other than individuals / HUF / NRI etc.) intending their authorized representative(s) to attend the Meeting through VC / OAVM on their behalf and to vote through remote e-voting are requested to send a certified copy of the Board Resolution to the Scrutinizer by e-mail through its registered e-mail address at [sachincs2022@gmail.com](mailto:sachincs2022@gmail.com) with a copy marked at [evoting@nsdl.co.in](mailto:evoting@nsdl.co.in).
6. **Tuesday, 5<sup>th</sup> July 2022** has been fixed as Record Date for the purpose of ascertaining the entitlement of Members for final dividend for the financial year ended 31<sup>st</sup> March 2022.
7. Dividend as recommended by the Board of Directors, if approved at the 24<sup>th</sup> AGM of the Company will be paid to those shareholders, subject to deduction of tax at source, whose names appear:
  - i. as Beneficial Owners at the end of the business hours on **Tuesday, 5<sup>th</sup> July 2022** as per the list to be furnished by the Depositories (i.e. NSDL and CDSL) in respect of shares held in electronic form, and
  - ii. as Members in the Register of Members of the Company on **Tuesday, 5<sup>th</sup> July 2022**.
8. As per SEBI Circular no. SEBI/HO/MIRSD/MIRSD\_RTAMB/P/CIR/2022/8 dated January 25, 2022, listed companies shall henceforth issue the securities in dematerialized form only while processing the following service request namely, i. Issue of duplicate securities certificate; ii. Claim from Unclaimed Suspense Account; iii. Renewal / Exchange of securities certificate; iv. Endorsement; v. Sub-division / Splitting of securities certificate; vi. Consolidation of securities certificates/folios; vii. Transmission; and viii. Transposition.

In view of this and to eliminate all risks associated with physical shares and for ease of portfolio management, members holding shares in physical form are requested to convert their shareholding in dematerialized form. Members may contact the Company or Company's Registrar and Share Transfer Agent (RTA), [investor@bigshareonline.com](mailto:investor@bigshareonline.com), for any assistance in this regard.

9. Members holding shares in physical form, in identical order of names, in more than one folio are requested to send to the Company or RTA, the details of such folios together with the share certificates for consolidating their holdings in one folio. A consolidated share certificate will be issued to such Members after making requisite changes.
10. SEBI has mandated the submission of PAN, KYC details and nomination by holders of physical securities by March 31, 2023, and linking PAN with Aadhaar by March 31, 2022 vide its circular dated November 3, 2021 and December 15, 2021. Shareholders are requested to submit their PAN, KYC and nomination details to the Company's registrars Bigshare Services Private Limited at [investor@bigshareonline.com](mailto:investor@bigshareonline.com). The forms for updating the same are available at [www.petronetlnq.in](http://www.petronetlnq.in).
- Members holding shares in electronic form are, therefore, requested to submit their PAN to their depository participant(s). In case a holder of physical securities fails to furnish these details or link their PAN with Aadhaar before the due date, our registrars are obligated to freeze such folios. The securities in the frozen folios shall be eligible to receive payments (including dividend) and lodge grievances only after furnishing the complete documents. If the securities continue to remain frozen as on December 31, 2025, the registrar / the Company shall refer such securities to the administering authority under the Benami Transactions (Prohibitions) Act, 1988, and / or the Prevention of Money Laundering Act, 2002.
11. Members are requested to submit their Bank details to the Company or our RTA to receive all the dividend through electronic mode directly in their respective bank accounts. In case of shares held in dematerialised mode, kindly register the details with Depository Participant(s) with whom the investors maintain their demat account. In case of shares held in physical form, the investors may register the details with the RTA, Bigshare Services Private Limited.
12. We urge members to support our commitment to environmental protection by choosing to receive the Company's communication through email. Members holding shares in demat mode, who have not registered their email addresses are requested to register their email addresses with their respective DP, and members holding shares in physical mode are requested to update their email addresses with the Company's RTA, Bigshare Services Private Limited at [investor@bigshareonline.com](mailto:investor@bigshareonline.com), to receive copies of the Annual Report 2021-22 in electronic mode. 15. Members may note that the Income-tax Act, 1961, ("the IT Act") as amended by the Finance Act, 2020, mandates that dividend paid or distributed by a company on or after April 1, 2020 shall be taxable in the hands of members. The Company shall therefore be required to deduct tax at source ("TDS") at the time of making the payment of final dividend. To enable us to determine the appropriate TDS rate as applicable, members are requested to submit relevant documents, as specified in the below paragraphs, in accordance with the provisions of the IT Act.

For resident shareholders, taxes shall be deducted at source under Section 194 of the IT Act as follows:

Members having valid Permanent Account Number (PAN)	10%* or as notified by the Government of India
Members not having PAN / valid PAN	20% or as notified by the Government of India

\* As per the Finance Act, 2021, Section 206AB has been inserted effective July 1, 2021, wherein higher rate of tax (twice the specified rate) would be applicable on payment made to a shareholder who is classified as 'Specified Person' as defined under the provisions of the aforesaid Section.

However, no tax shall be deducted on the dividend payable to resident individual shareholders if the total dividend to be received by them during financial year 2022-23 does not exceed ₹ 5,000, and also in cases where members provide Form 15G / Form 15H (Form 15H is applicable to resident individual shareholders aged 60 years or more) subject to conditions specified in the IT Act. Resident shareholders may also submit any other document as prescribed under the IT Act to claim a lower / nil withholding of tax. PAN is mandatory for members providing Form 15G / 15H or any other document as mentioned above.

For non-resident shareholders, taxes are required to be withheld in accordance with the provisions of Section 195 and other applicable sections of the IT Act, at the rates in force. The withholding tax shall be at the rate of 20%\*\* (plus applicable surcharge and cess) or as notified by the Government of India on the amount of dividend payable. However, as per Section 90 of the IT Act, non-resident shareholders have the option to be governed by the provisions of the Double Tax Avoidance Agreement (DTAA), read with Multilateral Instrument (MLI) between India and the country of tax residence of the shareholders, if they are more beneficial to them. For this purpose, i.e. to avail the benefits under the DTAA read with MLI, non-resident shareholders will have to provide the following:

- Copy of the PAN card allotted by the Indian income tax authorities duly attested by the shareholders or details as prescribed under rule 37BC of the Income-tax Rules, 1962
- Copy of the Tax Residency Certificate for financial year 2022-23 obtained from the revenue or tax authorities of the country of tax residence, duly attested by shareholders
- Self-declaration in Form 10F
- Self-declaration by the shareholders of having no permanent establishment in India in accordance with the applicable tax treaty
- Self-declaration of beneficial ownership by the non-resident shareholder
- Any other documents as prescribed under the IT Act for lower withholding of taxes if applicable, duly attested by the shareholders

In case of Foreign Institutional Investors / Foreign Portfolio Investors, tax will be deducted under Section 196D of the IT Act at the rate of 20%\*\* (plus applicable surcharge and cess) or the rate provided in relevant DTAA, read with MLI, whichever is more beneficial, subject to the submission of the above documents, if applicable.

\*\* As per the Finance Act, 2021, Section 206AB has been inserted effective July 1, 2021, wherein higher rate of tax (twice the specified rate) would be applicable on payment made to a shareholder who is classified as 'Specified Person' as defined under the provisions of the aforesaid section. However, in case a non-resident shareholder or a non-resident Foreign Portfolio Investor (FPI) / Foreign Institutional Investor (FII), higher rate of tax as mentioned in Section 206AB shall not apply if such non-resident does not have a permanent establishment in India.

The aforesaid declarations and documents are required to be submitted by the shareholders on or before 28th August 2022.

Members are requested to visit [www.petronetlng.in](http://www.petronetlng.in) for more instructions and information on this subject.

Shareholders can also check their tax credit in Form 26AS from the e-filing account at <https://www.incometax.gov.in/iec/foportal> or "View Your Tax Credit" on <https://www.tdscpc.gov.in>.

16. The Register of Directors' and Key Managerial Personnel and their shareholding maintained under Section 170 of the Companies Act, 2013, the Register of Contracts or arrangements in which the Directors are interested under Section 189 of the Companies

Act, 2013 and all other documents referred to in the Notice will be available for inspection in electronic mode during the AGM. Members may send their request for inspection by sending an email to [investors@petronetlng.in](mailto:investors@petronetlng.in).

17. Annual Listing Fee to NSE & BSE and Custody fee to NSDL & CDSL for the year 2022-23 have been paid.
18. M/s Agarwal S. & Associates, Practising Company Secretary (Firm Reg. No. P2003DE049100), has been appointed as the Scrutinizer by the Board of Directors of the Company to scrutinize the voting and remote e-voting process in a fair and transparent manner.
19. - (b) Name of the Director or Key Managerial Personnel (KMP) who is related: None (other than Shri Manoj Jain, Shri Shrikant Madhav Vaidya, Dr. (Ms.) Alka Mittal and Shri Arun Kumar Singh to the extent of being common Board Member of PLL as well as of the Promoter Companies viz. GAIL, IOCL, ONGC and BPCL respectively).
- (c) Nature of relationship: GAIL, IOCL, ONGC and BPCL and their affiliates are the promoters of Petronet LNG Limited and are related party(s) under the Companies Act, 2013 and the SEBI Regulations, 2015.
- (d) Nature, Material Terms of contracts, arrangements and transactions:

The Company has entered into the following agreements / contracts in the ordinary course of business and on arm's length basis:

1. Gas Sales and Purchase Agreement (GSPA) of 7.50 MMTPA (as amended from time-to-time), entered in 2003 with GAIL, IOCL and BPCL, in the ratio of 60:30:10 respectively, with validity till 2028: These agreements have been entered as back-to-back arrangement for LNG Sale and Purchase Agreements from RasGas of Qatar. The Long-Term Sales Agreements are materially back-to-back in terms of duration, quantity, price, foreign exchange fluctuation etc. in line with the long-term LNG Purchase contracts.
2. Gas Sales and Purchase Agreement (GSPA) of 1.425 MMTPA (as amended from time to time), entered in 2010 with BPCL, IOCL and GAIL, in the ratio of 40:30:30 respectively, with validity till 2035: These agreements have been entered as back-to-back arrangement for LNG Sale and Purchase Agreements from Mobil Australia Resource Company. The Long-Term Sales Agreements are materially back-to-back in terms of duration, quantity, price, foreign exchange fluctuation etc. in line with the long-term LNG Purchase contracts.
3. The Company also has Agreement with ONGC Limited for extraction of higher hydrocarbons from LNG imported which is replenished through LNG sourced on long-term/short-term/spot basis and is valid till 2028. This contract is for a volume of upto 0.973 MMTPA.
4. The Company also has long-term capacity regasification services agreements including Agreement for 2.5 MMTPA Capacity with GAIL, 1.5 MMTPA with IOCL and 1 MMTPA with BPCL at Dahej Terminal, valid till 2036. These long-term capacity regasification agreements are firm commitment contracts, on use or pay basis.
5. Further, the Company also supplies LNG/RLNG to the above said related parties on spot/short-term basis from time-to-time in its normal course of business. In addition, the Company also provides regasification and other related services to GAIL, IOCL, BPCL, ONGC and their affiliates.

## DIRECTORS' REPORT

## DIRECTORS' REPORT

### DEAR SHAREHOLDERS

On behalf of the Board of Directors, it is our privilege and honour to present the Twenty-fourth Annual Report along with Audited Standalone and Consolidated Financial Statements and Auditors' Report thereon for the financial year ended 31<sup>st</sup> March, 2022.

### PHYSICAL PERFORMANCE

#### DAHEJ LNG TERMINAL

India, like the rest of the world has also gone through an extremely challenging year 2021-22 for energy, especially Natural Gas and LNG. Despite the high LNG prices globally and energy supply related challenges, Dahej LNG Terminal having 17.5 MMTPA nameplate capacity, operated at about 15.32 MMTPA (87.5 %) during the FY 2021-22 as compared to 16.40 MMTPA (93.7 %) in the FY 2020-21. Despite all the odds, Dahej terminal achieved highest ever daily throughput of around 73 MMSCM on 03.07.2021.

During the financial year 2021-22, the Dahej Terminal handled 232 LNG Cargoes and supplied 792.9 TBTUs of RLNG as compared to 254 LNG cargoes and RLNG supplies of 849.24 TBTUs in previous financial year.

Dahej Terminal's truck loading operations demonstrated significant improvement, on a cumulative note, 4040 trucks were loaded during the period April 2021- March 2022 as compared to 2852 trucks during the previous year i.e increase of around ~ 41.7% and loaded highest number of 25 trucks on a single day on 03<sup>rd</sup> January 2022.

Despite marginally lower capacity utilization during FY 2021-22, efficient operations of Dahej plant resulted in an improvement of ~ 2.4% in average specific power consumption as compared to that of previous financial year.

#### KOCHI LNG TERMINAL

Kochi Terminal having name plate capacity 5 MMTPA, operated at 1.04 MMTPA (20.7%) during the FY 2021-22, as compared to 0.90 MMTPA (18.09%) in the FY 2020-21. Also, Kochi terminal achieved highest ever throughput of 6.15 MMSCMD on 26.08.2021. The utilization of Kochi Terminal increased further during 2021-22, owing to commissioning of pipeline connectivity to Mangalore in year 2020 and other sections in year 2021 of GAIL's Kochi-Koottanad-Bangalore-Mangalore Natural Gas pipeline, thereby connecting new customers on RLNG.

During the FY 2021-22 Kochi Terminal handled 16 LNG Cargoes as compared to 14 LNG Cargoes in FY 2020-21 and supplied 54 TBTus of RLNG as compared to 46.92 TBTus in FY 2020-21.

LNG was also supplied through trucks to various consumers in the absence of pipeline connectivity. Kochi Terminal's truck loading operations also demonstrated significant improvement wherein, 471 trucks were loaded during FY 2021-22 as compared to 376 trucks during FY 2020-21 i.e. increase of around ~ 25.3%.

Also, trial run of marine fishing boat on dual fuel (LNG + Diesel) has been successfully completed, which will pave the way for use of LNG in fishing boats and develop a new segment of gas

consumption in the country, which will have huge potential to contribute in making India gas-based economy.

#### SHIPPING ARRANGEMENTS

Your Company imports 7.5 MMTPA of LNG from Ras Laffan, Qatar on Free On Board (FOB) basis through its three long term chartered LNG vessels namely Disha, Raahi and Aseem. The duration of the charter is 25 years for each vessel. These vessels are owned by a consortium of M/s MOL, M/s NYK Line, M/s K-Line and M/s Shipping Corporation of India Ltd. (SCI). The technical management, manning and operations are carried out by SCI. The ships operate on a long-term time charter basis with Petronet as the charterer.

Supply of LNG from MARC (Exxon Mobil) is now on Delivery Ex Ship (DES) basis and fourth long term-chartered LNG vessel "Prachi" was novated to Exxon Mobil in the year 2017-18.

During FY 2021-22, the overall shipping operations have run smoothly and efficiently. The jetty utilization has been optimized without any downtime. All scheduled cargoes were lifted and transported through long term chartered vessels along with timely hiring of additional LNG vessels at competitive market rates.

#### FINANCIAL PERFORMANCE

During FY 2021-22, your Company achieved highest ever turnover, PBT and PAT. The turnover of FY 2021-22 stood at Rs.43,169 Crore as against Rs.26,023 Crore in FY 2020-21. PBT stood at Rs 4,474 Crore in FY 2021-22 as against PBT of Rs 3,968 Crore in FY 2020-21. PAT was Rs 3,352 Crore during FY 2021-22 as against PAT of Rs 2,949 Crore in FY 2020-21. The Company was able to achieve robust financial results owing to efficient commercial operations, in spite of high and volatile spot gas prices during the year. Net worth of your Company has increased from Rs. 11,649 Crore as on 31<sup>st</sup> March, 2021 to Rs. 13,425 Crore as on 31<sup>st</sup> March, 2022.

The Board of Directors of your Company has recommended a final dividend of Rs. 4.50 per equity share of Rs. 10/- each i.e. 45% of the paid-up Share Capital of the Company as on 31<sup>st</sup> March 2022. This is in addition to Special Interim Dividend of Rs. 7 per equity share of Rs. 10/- each paid by the Company in December 2021. This is the 16<sup>th</sup> consecutive year for which your Company has recommended payment of dividend.

The final dividend shall be paid to the members, whose names appear in the Register of Members as well as the Beneficial Ownership Position provided by NSDL/CDSL as at the close of business hours on 5<sup>th</sup> July, 2022 (Record date).

Your Company has duly approved Dividend Distribution Policy ("The Policy") in place. The same is annexed to this Report and is also available on Company's website at [https://www.petonetlng.in/PDF/Dividend\\_Policy.pdf](https://www.petonetlng.in/PDF/Dividend_Policy.pdf)

## CHANGES IN SHARE CAPITAL

There was no change in the Share Capital of the Company during the year. The Company has Authorised Share Capital of the Company of Rs. 30,00,00,00,000/- (Rupees Three Thousand Crore) divided into 3,00,00,00,000 (Three Hundred Crore) Equity Shares of face value of Rs. 10/- (Rupees Ten) each and Paid-up Share Capital of Rs. 15,00,00,00,880/- (Rupees One Thousand Five Hundred Crore Eight Hundred Eighty) divided into 15,00,00,00,88 (One Hundred Fifty Crore Eighty Eight) Equity Shares of face value of Rs. 10/- (Rupees Ten) each.

## NEW PROJECTS AND PLANS BUSINESS INITIATIVES

### STRATEGIC PLANNING

During the year, your company set an ambitious target for itself, subsequent to which its vision and strategy document titled "1-5-10-40" was formulated, setting the path for exponential growth and diversification. The company aims at achieving an annual turnover of Rs. 1 lac crore over next five years and annual Profit after Tax of Rs. 10 thousand crore with investments of Rs. 40 thousand crore.

In order to meet this challenging target, your company also identified a need for optimization of the decision-making process for its Executives at various levels. Accordingly, the company undertook an extensive exercise to re-visit the existing "Delegation of Authority", wherein the executive powers were rationalized to align with its growing business needs.

Similarly, PLL also recognizes that strategic goals require harmony and alignment with the company's HR Policies and practices, therefore, it became imperative to revisit the entire spectrum of HR Policies and align it with Industry best practices. In this endeavour, 39 HR Policies have been revised and implemented.

### REGAS CAPACITY EXPANSION OF DAHEJ

Keeping in view of the expected growth in demand of LNG in line with the vision of Hon'ble Prime Minister to enhance the share of natural gas in Energy basket of the country from 6.7% to 15% by 2030, your company is undertaking a highly cost effective brownfield expansion of regas capacity of Dahej

Terminal from 17.5 MMTPA to 22.5 MMTPA at an estimated cost of approx. Rs. 600 crore.

## STORAGE TANKS AT DAHEJ

Presently, Dahej terminal has six LNG tanks with a total storage capacity of approximately 1 million cubic meter. The same is being further augmented by way of construction of two additional LNG tanks each of 1,80,000 cubic meter capacity, at a cost of approx. Rs. 1250 crore. The construction work has commenced in September 2021 and is in full swing.

## THIRD JETTY

In order to meet the growing demand of RLNG and to ensure sustainable operations at Dahej Terminal, your company has also undertaken the project of construction of third berth at Dahej at an approx. cost of Rs. 1700 crore. Besides LNG, the third berth shall also have the facilities to handle ethane- for catering to the demand of prospective customers, and propane- to be used as the feedstock for the proposed Petrochemicals plant.

## AFFORDABLE RENTAL HOUSING COMPLEX (ARHC)

Your Company has undertaken construction of 1500 Dwelling Units (DUs) under Affordable Rental Housing Complex (ARHC) scheme for urban migrants/poor, under Pradhan Mantri Awas Yojana – Urban (PMAY-U) at an approx. cost of Rs. 100 crore at Eksal village in Bharuch district of Gujarat. The Primary aim of ARHC scheme is to develop and provide a section of migrant workforce, access to dignified and affordable rental housing close to their workplace and elevate their living conditions from staying in slums and unauthorized settlements.

## GASSING UP AND COOLING DOWN (GUCD)

To tap the niche business opportunity of gassing up and cooling down operations of LNG ships on sustainable basis, your Company has undertaken augmentation of GUCD facilities at Kochi terminal. It would provide a competitive solution to prospective customers at Kochi LNG Terminal.

## FORMATION OF WHOLLY-OWNED SUBSIDIARY- PETRONET LNG SINGAPORE PTE. LTD.

Your company envisages to be a Global LNG player and has thereby incorporated a wholly-owned subsidiary company 'Petronet LNG Singapore Pte. Ltd.' on 7<sup>th</sup> March 2022. Petronet LNG Singapore Pte. Ltd." has been incorporated to carry out business/activities, including but not limited to purchase of LNG on long, spot and short-term basis and sale of LNG, trading of LNG to Indian and foreign companies, optimization and diversion of LNG under its portfolio, carry out hedging, investments in overseas ventures etc.

## PETROCHEMICAL COMPLEX AT PLL DAHEJ TERMINAL

Your company has plans for setting up of a Petrochemical complex based on imported propane at Dahej LNG Terminal. Your company is in the process of major diversification. Your Company has completed the Pre- Feasibility Report for setting up an integrated Petrochemical Complex including Propane

Dehydrogenation (PDH) Unit (of capacity up to 750 KTPA), 500KTPA Poly Propylene (PP) Unit and Ethane/ Propane import facility at Dahej. The import facility for Ethane and propane at Dahej terminal is a forward integration of our strategy as the same get synchronised with our upcoming third jetty project having provisioning for ethane and propane unloading facilities. Company's available land bank at Dahej, sharing of some of the existing utilities and no additional infrastructure for transport of feedstock makes this project very cost efficient. Your Company has also completed the commercial due-diligence and results are very encouraging for initiating the Detailed feasibility Studies and other Pre-project studies. Your company is also exploring the option of setting up of propylene derivative complex (other than PP) in near future.

## LNG STORAGE AND REGASIFICATION TERMINAL ON EAST COAST OF INDIA

With a strategic vision to establish our presence in the Eastern coast of India, your company plans to set up the FSRU based LNG terminal on East coast of India. The LNG terminal will cater to the increasing gas demand of the eastern and central part of the country. Your company has already completed Detailed Feasibility Report (DFR) for the 4 MMTPA FSRU based terminal with further scope for expansion to land based terminal of 5 MMTPA capacity.

## SETTING UP OF COMPRESSED BIO-GAS (CBG) PLANTS

Your company has received 32 Letter of Intents for setting up of CBG plant across various parts of India primarily in Haryana & UP. Your company has submitted the proposal to Government of Haryana for allocation of land for setting up of CBG plants in 5 Districts (Sonipat, Jind, Karnal, Kaithal & Ambala). Parallelly, setting up of CBG plant in and around the Sugar Mills & Gaushala is also being explored.

## OVERSEAS PROJECTS

Your company has been shortlisted as one of the potential bidders against Expression of Interest to the REOI (Request for Expression of Interest) floated by Rupantarita Prakritik Gas Company Limited (RPGCL), a subsidiary of Petrobangla for construction of Land-based LNG Re-gasification Terminal at Matarbari, Cox's Bazar, Bangladesh on build, own, operate and transfer basis. Accordingly, RPGCL has issued the Request for Proposal (RFP) document to Petronet LNG Limited for submission of its Proposal. Your company is exploring carrying out requisite activities for bid-submission in this regard. Your company is also exploring the business opportunities in LNG value chain in Sri Lanka and in process of collaborating with potential counter part including Government of Sri Lanka.

## LNG THROUGH TANKERS AND AS AN AUTOMOTIVE FUEL

As a prudent business entity, a step towards making India a gas based economy and responsible corporate augmenting efforts of India meeting COP-21 and COP-26 commitment, your Company is taking up initiatives to develop the small-scale LNG market in the Country and has been promoting the environment friendly LNG as a fuel for Medium & Heavy Commercial Vehicles (M&HCVs), mining equipments, etc.

In its efforts to develop LNG as an automotive fuel, your Company is focusing more on development of LNG dispensing eco-system on National highways in southern India in the initial stage. In this regard, four (04) LNG Dispensing Stations are under construction in Southern India and will be commissioned soon.

Further, your company is exploring locations along major national highways to setup LNG dispensing stations to develop market for LNG as an automotive fuel, which has huge potential to utilize 10-12 MMTPA of LNG over the years.

In order to cater to the demand of LNG as fuel for Automotive, Industrial & Commercial, Institutional, Inland Waterways, CGD sector not connected on main trunk line and Mining sector, your company is planning to setup LNG dispensing stations across India covering major highways on Golden Quadrilateral, East-West, North-South Corridors and setting up additional truck loading bays at Dahej and Kochi terminals.

## HEALTH, SAFETY & ENVIRONMENT (HSE)

Your company is ensuring that both Dahej and Kochi terminals operate safely throughout the year. Your Company is committed to conduct business with a strong environment conscience, ensuring sustainable development, safe workplaces, enrichment of the quality of life of its employees, customers, and the community at large. Compliance of statutes and procedures are proactively monitored by the Company. The Company is having well defined policy for Quality, Health, Safety, Environment and Asset Management. Your Company has taken numerous steps to ensure health of employees and continue uninterrupted operations of terminals during pandemic. Employees were allowed to work from home during pandemic as per government guidelines issued from time to time. Also, a group of employees have been assigned the responsibility of interacting with employees or spouses of employees/ relatives for ensuring their well-being. As a step towards conservation of water, a plant for conversion of Air Heater Condensate water into potable water is successfully operating. Recently, a 100 KLD STP plant has been commissioned at Dahej terminal to treat sewage. Further, company has started periodical marine ecological survey around jetty to ensure no harm to existing living beings inside sea.

Your company's commitment towards HSE has been recognised by statutory bodies and global HSE forums. Your company received "National Safety award in oil and gas (Large sector)" in 9<sup>th</sup> Global Safety Summit, "Safety award 2021" from Kerala Factories & Boilers, and award of "Best Performance of Safety Committee" from National Safety Council-Kerala Chapter.

The Company has formed new wholly owned subsidiary Company Petronet LNG Singapore Pte Ltd (registered in Singapore) on 7<sup>th</sup> March 2022.

**CONSERVATION OF ENERGY AND TECHNOLOGY ABSORPTION**

**Conservation of Energy**

All possible measures have been undertaken successfully by your Company to achieve the desired objective of energy conservation and technology upgradation. In order to ensure optimum conservation of energy and absorption of technology, your company has undertaken following major steps:

- Plants are using best technology and optimization practices for energy conservation.
- Plant cold energy is being used for air conditioning of buildings and cooling in Nitrogen Generation Plant.
- Company is installing rooftop mounted solar panels at Dahej and Kochi terminals to reduce carbon footprints and contribute to renewable energy drive of the country.
- Energy efficiency of both terminals have improved by optimizing the plant operations.

**Research & Development**

To promote LNG, the cleanest fossil fuel, in new segments, your company has undertaken field trials in the fishing boat and road transportation sectors. The trial of fishing boat on dual fuel i.e. LNG and diesel, in association with Kerala Development and Innovation Strategy Council and ICAR- Central Institute of Fisheries Technology, Kochi has been undertaken. This innovation is likely to open up a huge opportunity for introduction of cleaner fuels in the vast fisheries sector and other marine applications.

Two LNG buses each deployed for commuting of local employees at Dahej and Kochi Terminals are running successfully. During the year, the two buses at Kochi were provided to KSRTC for conducting long haul extensive commercial trial runs for a period of over four months. The buses were deployed on the busy Kochi-Thiruvananthapuram and Kochi-Calicut routes. Encouraging results were obtained at both the locations.

# **MANAGEMENT DISCUSSION AND ANALYSIS**

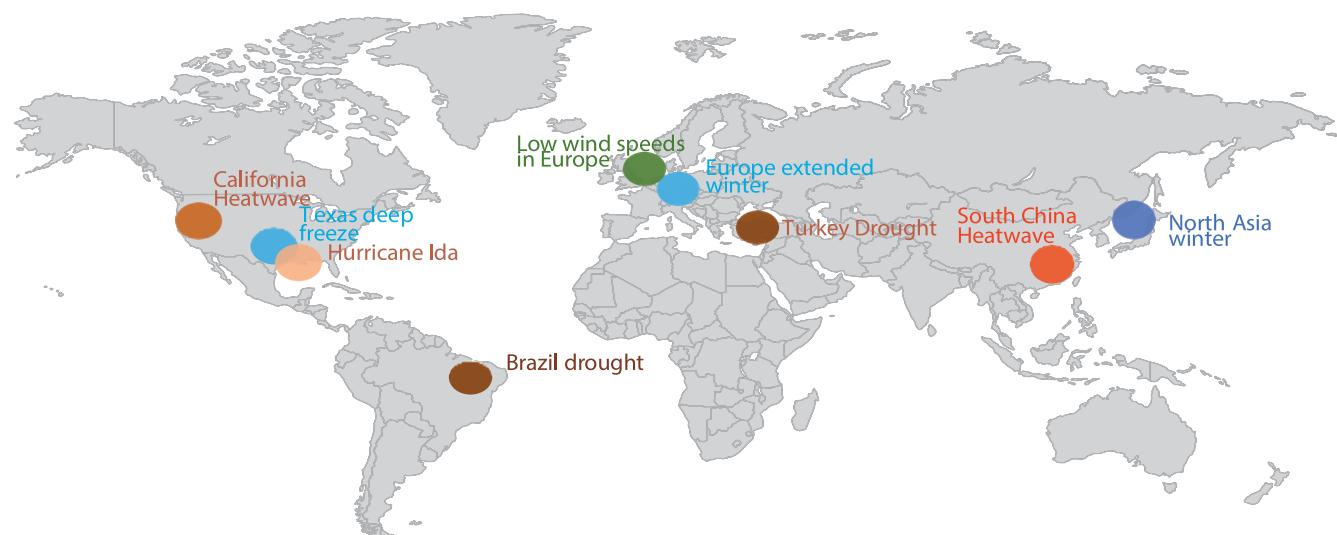

## Management Discussion and Analysis (FY 2021-22)

### Global LNG Review

The natural gas value chain has demonstrated strong resilience through Covid-19 pandemic in last two years. Despite unprecedented shocks to the global energy system, natural gas value chain has shown marked agility in meeting the Global energy requirement. In an environment marked by energy shortages and price volatility, last year saw a strong return in Global natural gas demand with a 4.3% y-o-y growth from 3,753 Bcm in 2020 to about 3,913 Bcm in 2021. This was the third strongest year since 2000, after 2010 and 2018 (which grew by 7.8% and 5.2% respectively). This strong growth resulted from the combination of factors namely, a rebound in economic activity resulting in increased consumption in the industrial and power generation sectors, and extreme weather events that led to higher-than-expected heating and power generation needs. These weather events can take the form of extended periods of high or low temperatures leading to increased demand for cooling or heating, or shorter periods with extreme weather that disrupts energy supply (see Chart-1).

### Global LNG Trade

Global LNG trade\* expanded by 6% in 2021 from 359 MT to 379 MT (20 MT) (See Chart 2 and Chart 2B). The Asia Pacific region saw an 8% increase in LNG imports and accounted for more than 95% of the net growth in LNG trade globally. China (up by 17%) and Korea (up by 14%) were the largest contributors in volume terms, particularly in the first three quarters of 2021. Emerging Asia's LNG imports rose by 14% in 2021. Central and South America were the second largest contributing region to global LNG import growth, with a 69% increase in 2021. This was mainly driven by Brazil, where the worst drought in nearly a century led to a threefold increase in LNG demand.

Global LNG export growth was dominated by the United States, which was responsible for almost all the net increase in LNG supply in 2021. Australia, Qatar, the United States and Russia remained the four leading exporters of LNG, together accounting for more than two-thirds of global LNG supply in the year 2021. US LNG exports registered a remarkable 50% increase in 2021 as soaring spot LNG prices and geo-political factors pushed US terminals to operate at full capacity in the second half of the year 2021. LNG supply from the three other large producers combined was up by 2%. Egypt recorded a more than fourfold increase in LNG exports, main contributor to this increase was restart of the Damietta terminal in February 2021. Malaysia registered a 6% increase in 2021 following steep curtailments during the price collapse in 2020. Other suppliers experienced substantial declines, including Norway (down 98%, mainly due to fire at Hammerfest LNG facility that receives and processes natural gas from the Snohvit field in the Barents Sea), Trinidad and Tobago (down 34%) and Nigeria (down 17%).

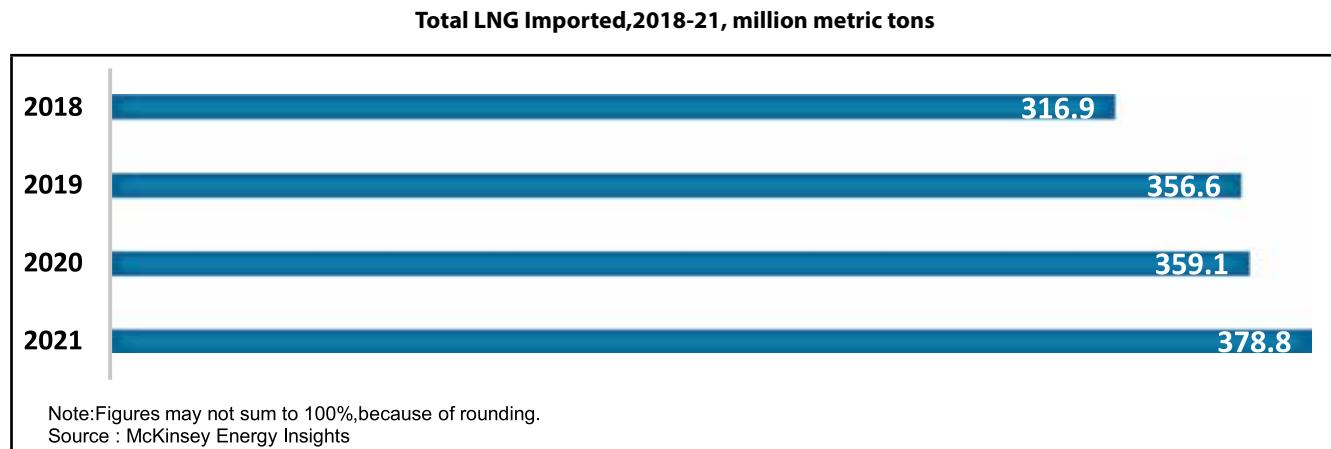

LNG volumes traded on a spot or short-term basis accounted for around 37% of global LNG trade in 2021. China remained the largest importer and the US the largest exporter of spot and short-term LNG volumes.

In 2022 as a whole, global LNG trade is projected to increase by 5%, and Europe along with Asia Pacific region, is likely to dominate LNG import growth in 2022. North America is likely to remain the main engine of LNG export growth globally. LNG exports from the United States are expected to grow by 19%, driven by the start-up of new liquefaction capacity at Sabine Pass Train 6 and the

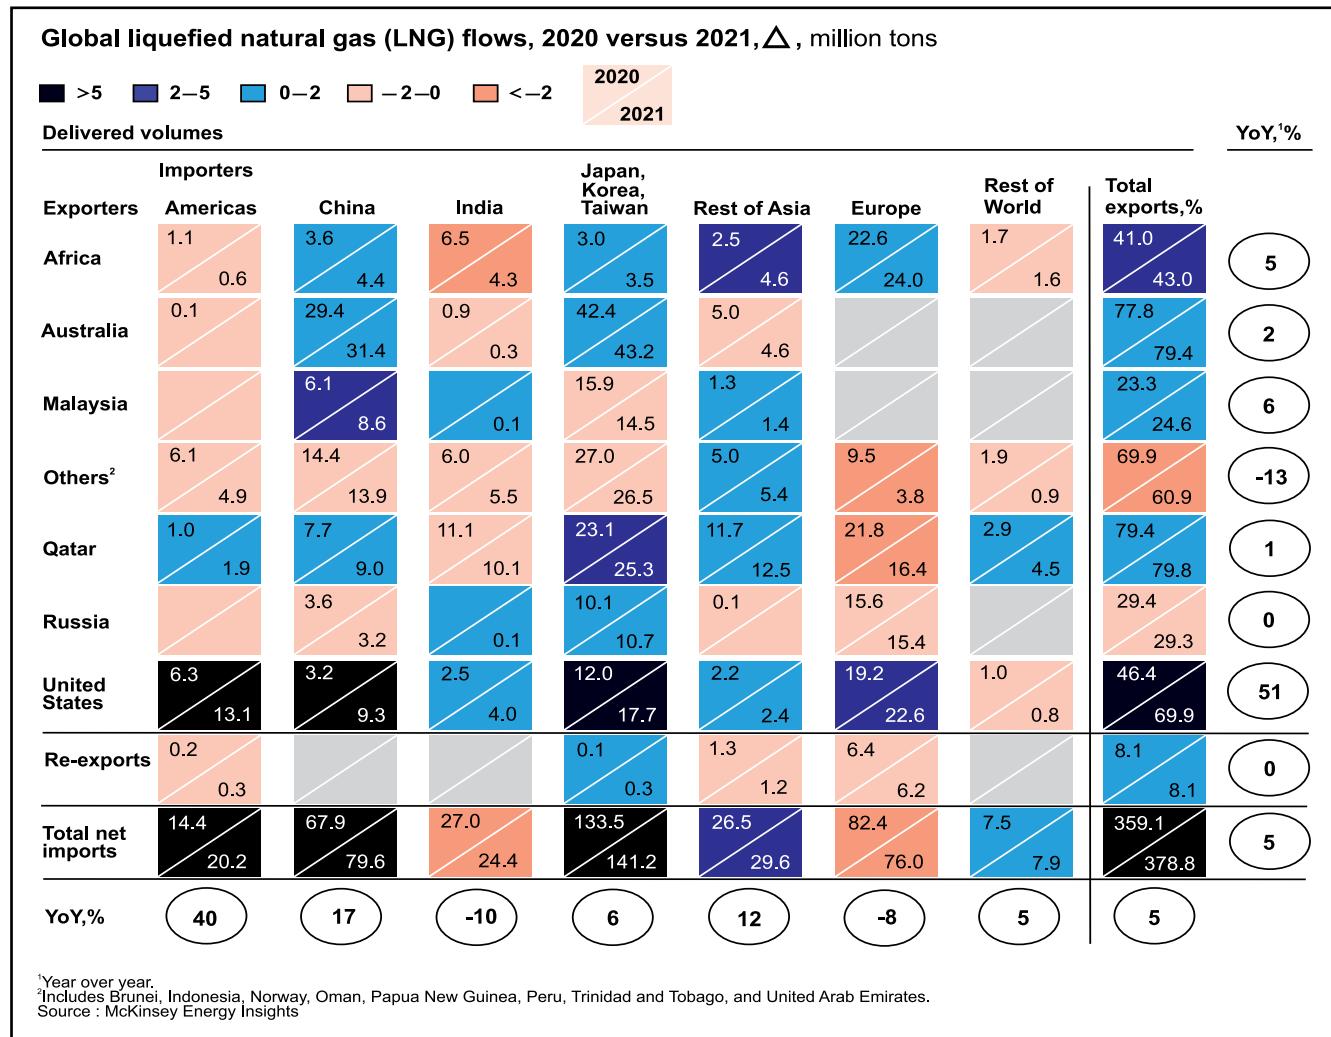

Calcasieu Pass terminal in Louisiana, and higher utilisation of existing facilities.

\* A per IGU Global GA report 2022, Global LNG trade increased by 6% to 385 MT in 2021 from 362 MT in year 2020, whereas as per GIIGNL Annual Report 2022, in year 2021, global LNG imports reached 372.3 million tons (MT), increasing by 16.2 MT compared with 356.1 MT in the previous year of 2020. Whereas as per McKinsey Energy Insights, Total LNG imported in 2021 was 378.8 MT vis-a-vis previous year import of 359.1 MT.

## Natural Gas price

Natural gas spot prices made a strong recovery in all major markets in 2021, driven by tight market fundamentals. Recovery in economic activity, lower-than-average underground storage inventory and a sharp year-on-year drop in Russian pipeline supplies, exerted upward pressure on natural gas prices. Also, with economic recovery, Brent oil prices rose by almost 70% from their 2020 levels to reach an average of USD 70 per barrel in 2021.

LNG prices entered 2021 on the back of a then-record spike in January, dropped in February and March, and then steadily grew until the end of the year as the LNG market tightened (Chart 3). Spot prices in the final four months of the year averaged more than \$30 per MMBTU. Compared with typical oil-linked contracts, spot prices were higher for almost the entire year. The average spot price for LNG in Asia represented by JKM index in 2021 was around \$18 per MMBTU, from around \$ 4 per MMBTU in 2020.

**Chart-3: LNG prices in Asia, 2016-22**

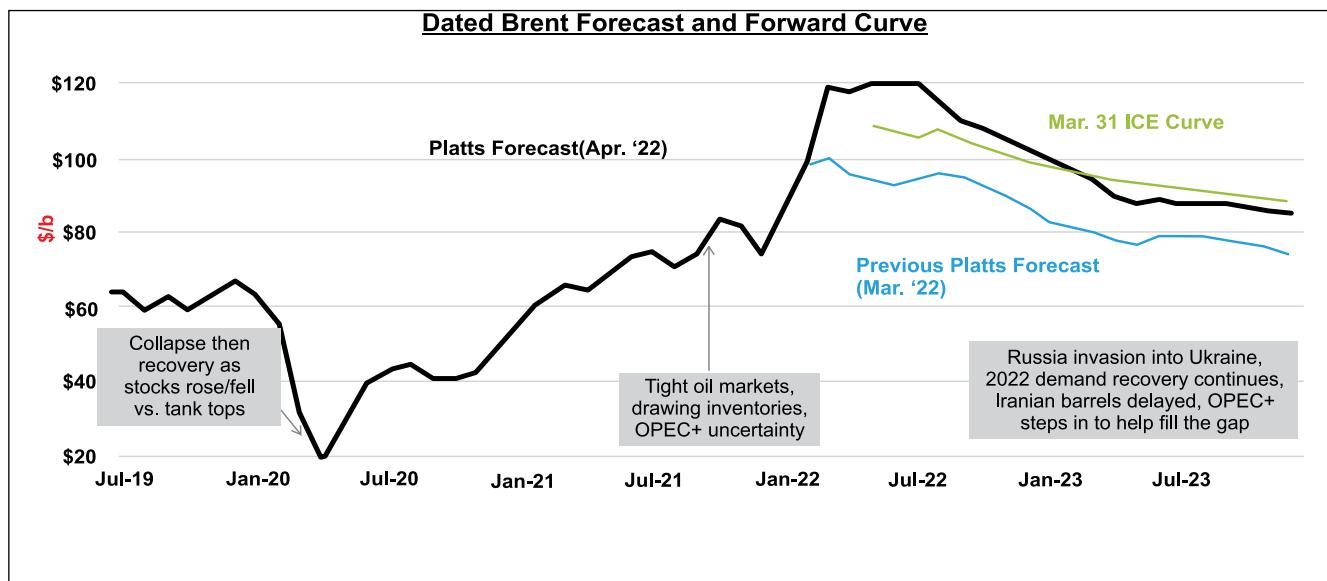

Several key drivers help explain the unprecedented price recovery in 2021. First, operational difficulties in several projects constrained overall supply despite the recovery of US LNG projects. Second, strong Asian demand, particularly in the first nine months of the year, tightened the global LNG balance, enabling Asian buyers to fill storage. Finally, in Europe, low wind conditions and nuclear generation led to high levels of gas to power demand, which reduced the ability of European buyers to refill storage in the summer.

Given that the sustained high prices from 2021 are carrying into 2022, we are likely to see similar trends to prevail in the year 2022. The trend may change if fundamentals or perceptions of market tightness undergo change. The change in trend could be driven by a reduction in demand because of a mild end of winter or spring. However, the European market has a limited storage buffer to cope with any supply disruptions, which could result in sustained high prices.

JKM and TTF saw a significant increase in volatility in March 2022 after Russia's conflict with Ukraine. The JKM assessment posted a fresh all-time high of \$84.8/MMBtu on March 7<sup>th</sup>, 2022 following a large swing in intraday pricing of TTF. Europe's TTF gas price peaked at \$86.20/MMBtu, in March before easing by month-end. JKM fell significantly from that level to trade between \$29/MMBtu and \$38/MMBtu since March 11<sup>th</sup>. Whereas Brent crude after peaking at \$137.54/bbl on 8<sup>th</sup> March 2022, Dated Brent prices have eased to around \$110/bbl to end the month of March.

Considering that over 50% of traded LNG is indexed to oil and oil products, higher oil prices lifted LNG prices in contracts with oil-based formulae. A glimpse of historical and Dated Brent Forecast and Forward Curve is shown below in Chart-4.

## Natural Gas Demand

On the Demand front, Chinese LNG demand in 2021 grew by 11.7 MT upto 77 MT overall whereas, demand in Japan, Korea, and Taiwan grew by 7.7 MT, and Brazil grew by 5.1 MT (see Chart-5). Strong purchasing occurred during the first quarter of 2021 to meet winter demand, and then in the second and third quarters of 2021 with Asian buyers refilling storage. In the second quarter and continuing into the third quarter of 2021, Brazilian imports started to increase significantly to meet a decline in hydropower.

European LNG demand, net of re-exports, fell by 6.4 MT (8 percent) down to 81.2 MT overall, a change driven by large decreases in imports in the first quarter of 2021. The fourth quarter of 2021 saw a strong return to growth as European security of supply issues led European buyers and prices to outcompete Asian buyers.

## Chart-5: Change in LNG imports

## Conclusion

Initially, in the short term the LNG market is likely to remain supply deficit with prices to remain high in the LNG spot market as the global economy has started recovering from COVID second and third waves. Also, with the escalation of the Russia-Ukraine crisis, the impact on gas and LNG market will continue to be substantial, as already seen in record price highs in the first quarter of 2022.

This will spur more investment in liquefaction capacity specially to meet higher European demand and to keep up with the growing economies of Asia like India, China and Southeast Asia. It is believed that South Asia (incl India) and China will try to balance out the LNG market, but conflict in Ukraine will ultimately impact affordability and availability of LNG, as this geo-political event has the potential to impact the whole energy matrix.

Over the long run, the much-needed substitution of coal and polluting liquid fuels as well as the geographical mismatch between natural gas production and consumption will generate significant additional LNG demand. While many economies in the world are facing energy supply security issues, LNG has clear potential to support economic growth and the achievement of net zero carbon ambitions since LNG is a proven, clean and flexible solution and uniquely placed to meet sustainability challenges while enhancing competitiveness and energy resilience.

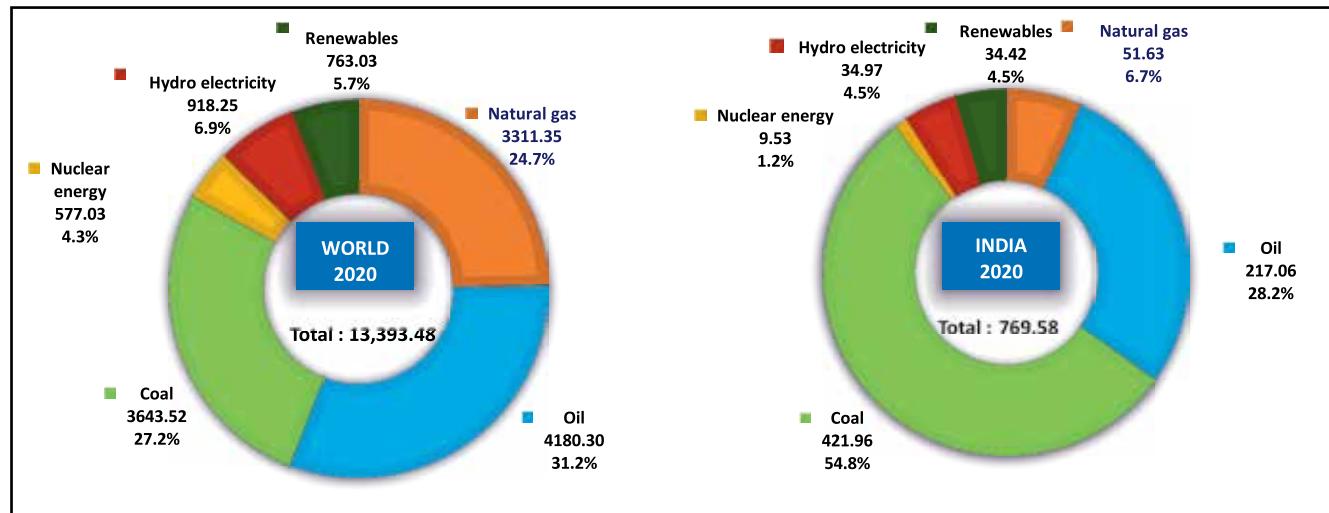

## Natural Gas and LNG in India:

India with a population of over 1.3 billion and having one of the largest young populations with a median age of 28 years coupled with strong economic fundamentals, increasing income level and rising standards of living, share of India in global primary energy consumption is likely to increase from current 6.1% to 9.8% by 2050 (IEA-World Energy Outlook 2021). Per capita energy consumption of India is about 1/3<sup>rd</sup> of world average and there is a tremendous scope for increase in per capita energy consumption, as economy grows, and primary energy consumption grows. As per IEA's India Energy Outlook 2021, India has been ranked third largest primary energy consumer in the world.

India's economic growth is closely related to its energy demand, therefore, the need for oil and gas is projected to grow more, thereby making the sector quite conducive for investment. Oil and gas sector is among the eight core industries in India and plays a major role in influencing decision making for all the other important sections of the economy.

Coal (55%) is still the dominant fuel in the primary energy matrix of India, followed by Oil (28%) - (refer Chart 6). The share of Natural Gas in India's primary energy basket is 6.7%. However, in terms of LNG import, India has been ranked as the fourth largest LNG importer in the world in year 2021 with total LNG import at 24.02 MT (~6.5% of Global share).

## Review of Gas Production, Pricing and Consumption (incl. LNG Imports):

India, like the rest of the world has also gone through an extremely challenging year 2021 for energy especially Natural Gas and LNG. In the following section, a review of the Indian gas market in 2021 is being carried out:

## Gross production of Domestic Natural Gas:

Chart: 7-Gross Production in MMSCM

SOURCE: PPAC; MMSCM: Million Standard Cubic Meter, data for FY 2021-22 is Provisional

Chart 7 above shows the domestic gross production in last ten years. In FY 2021-22, total gross domestic gas production (ONGC+OIL and Private/JVCs) was 34,024 MMSCM (93.22 MMSCMD) as compared to 28,672 MMSCM (78.55 MMSCMD) in immediately preceding FY, which was 18.7% more (5,351 MMSCM or 14.66 MMSCMD). This was due to increase in domestic production from various new fields. However, the domestic gas production from new fields suffer from short asset-life and these fields are expected to reach their plateaus in coming 5-6 years before starting to decline. Consequently, with expected increase in natural gas from various consuming sectors along with decline in domestic natural gas production, the dependency on imported LNG, is expected to increase further from present around 50% to 75% by 2030.

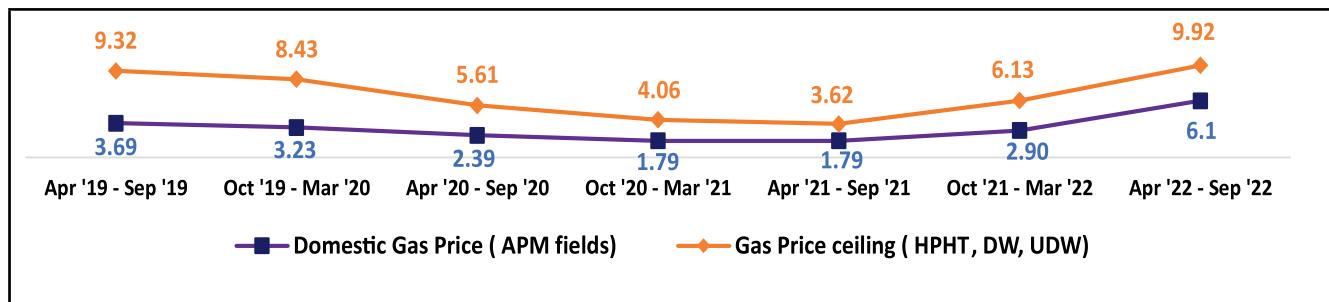

## New Sources of Domestic Gas Availability (in brief):

Domestic gas production from various new fields that went online in year 2021 were namely R- cluster and Satellite fields, B-80 block (Mumbai Offshore), Barmer (Rajasthan) and Coal Bed Methane (CBM) from SP (West)-CBM block. Further, it is also understood that another tranche of 12 MMSCMD of gas from MJ field in the eastern offshore Krishna Godavari D6 block is expected by 3Q of FY23.

## Pricing:

As far as pricing of domestic gas is concerned, same is being carried out by Petroleum Planning & Analysis Cell (PPAC) in accordance with "New Domestic Natural Gas Pricing Guidelines, 2014" dated 25<sup>th</sup> October 2014. The price of domestic natural gas for the period 1<sup>st</sup> April 2022 to 30<sup>th</sup> September 2022 is US \$ 6.10 / MMBTU on GCV basis. Whereas, in accordance with MoPNG notification dated 21<sup>st</sup> March 2016 for marketing including pricing freedom for gas being produced from discoveries in Deepwater, Ultra Deepwater and High Pressure-High temperature areas, the gas price ceiling for the period 1<sup>st</sup> April 2022- 30<sup>th</sup> September 2022 is US \$ 9.92 / MMBTU on GCV basis. The Historical prices since April 2019 till date is shown in **Chart 8** below.

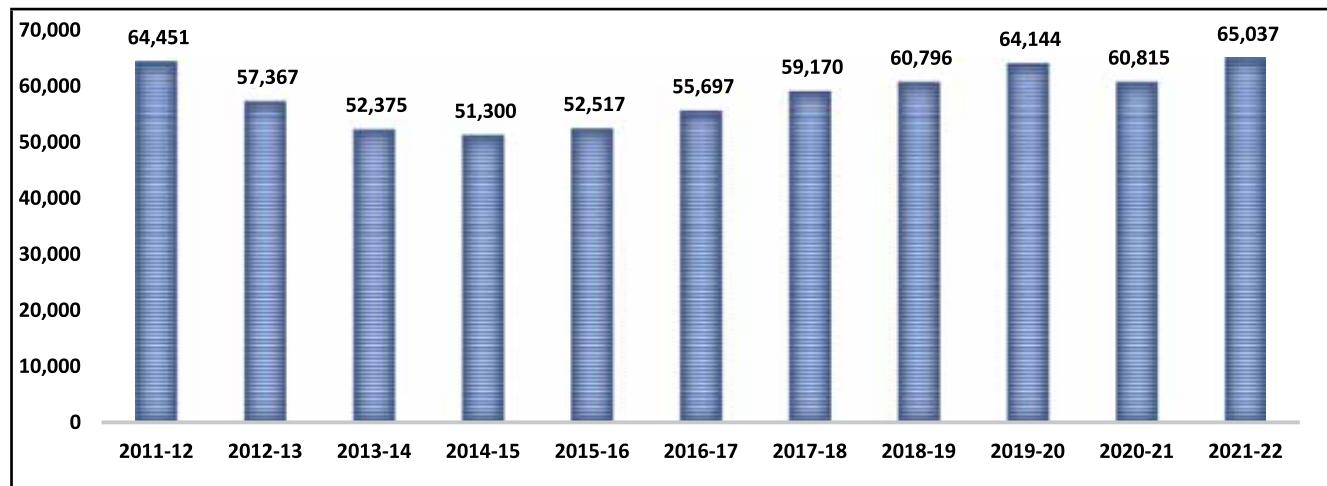

Chart 8: PPAC NOTIFIED Gas PriceS (\$/MMbtu)

## Consumption:

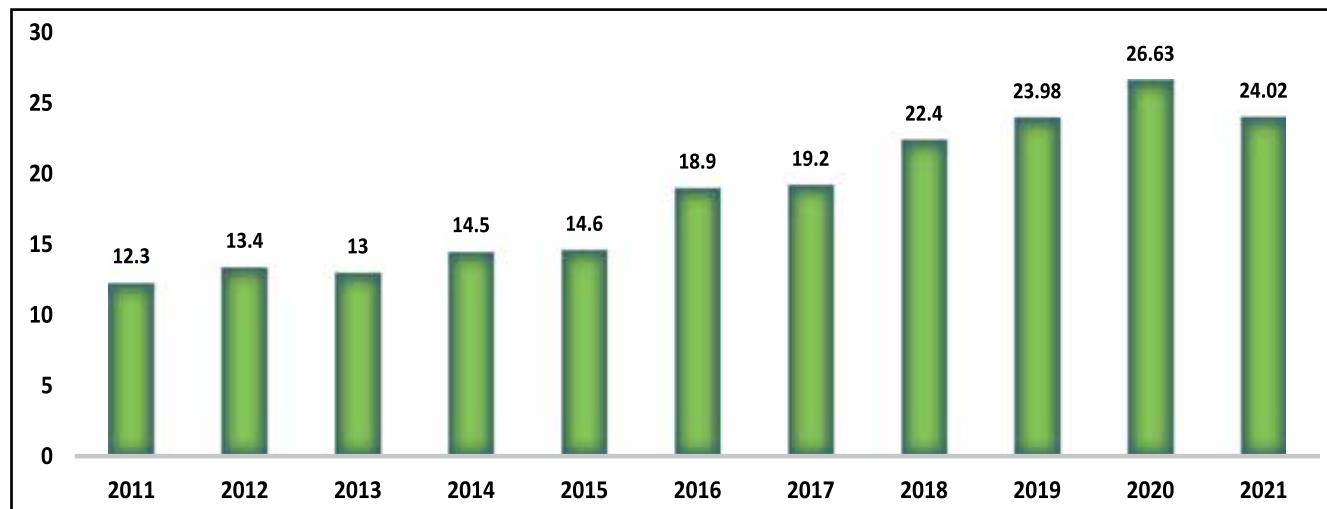

When it comes to Natural Gas consumption (Net Production + LNG import), FY 2021-22 witnessed higher gas consumption (6.94% increment) by 4,222 MMSCM or 11.57 MMSCMD when compared to immediate previous financial year (2020-21) consumption data (60,815 MMSCM or 166.62 MMSCMD). One of the reasons was the increased production and supply from the domestic gas fields and the other reason was the rapid economic recovery in 2021 after the 2020 COVID lockdowns.

**Chart 9: Total Consumption\* in MMSCM**

Source: PPAC, \*includes internal consumption. Data for FY 2021-22 is Provisional. Totals may not tally due to rounding of issues.

### LNG Imports:

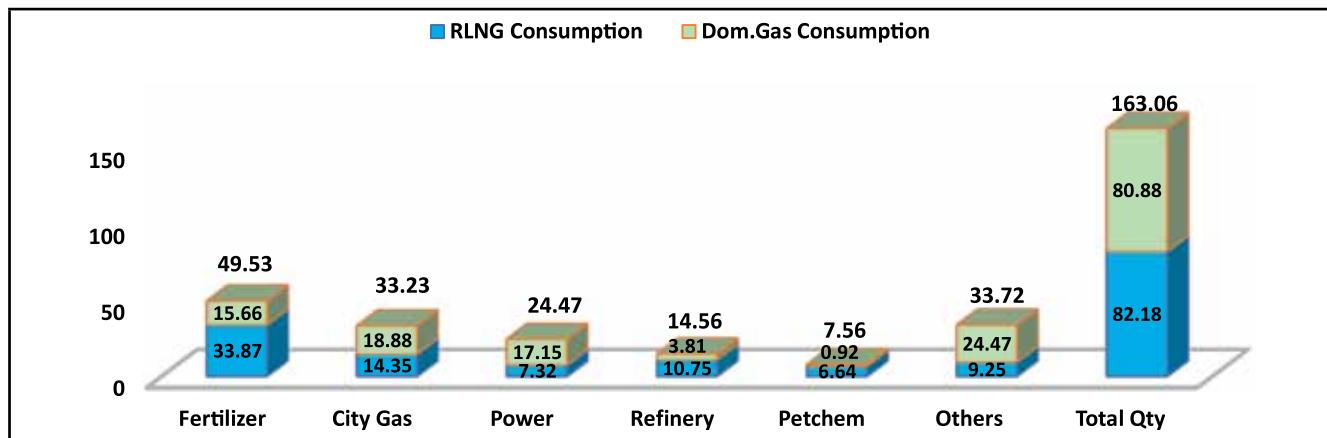

As shown in Chart 10 below, in the year 2021 there was reduction by 2.61 million tons (MT) in total LNG Imports (24.02 MT) vis-a-vis immediately preceding year 2020 (26.63 MT). This was the first annual decline (-9.8%) since 2013. The reason for this decline of LNG import may be attributable to higher domestic gas supply and high volatility in spot LNG prices.

**CHART 10: Total Import of LNG to India in MT**

### Sectoral Consumption:

As shown in chart 11 below, in the FY 2021-22, total natural gas consumption was 59,518 MMSCM or 163.06 MMSCMD. Out of this, share of RLNG was 29,996 MMSCM (~ 82.18 MMSCMD, 50.4%) whereas balance of 29,522 MMSCM (~80.88 MMSCMD, 49.6%) was attributable to domestic gas consumption. The highest sectoral share was of Fertilizer followed by Others which includes industries like ceramic, sponge iron and other types of small scale users. It is to be noted that in immediately preceding FY 2020-21, total gas conusmption was 153.74 MMSCMD with breakup of RLNG: 86.67 MMSCMD (56.37%) and Domestic: 67.08 MMSCMD (43.63%).

### Govement policies and intiatives:

The Government of India has set a target of increasing share of natural gas from present 6.7 percent to 15 percent in the Primary Energy basket by year 2030. Therefore, Natural gas has enormous potential to grow its share in primary energy basket in India and various enablers have been put in place by the Government of India in this regard. To cater to growing requirement of Naturals Gas, India adopted two-pronged strategy firstly by enhancing domestic supply by incentivising production of Domestic of Natural Gas and secondly by setting up Natural gas infrastructure for import of LNG including the expansion of Natural gas pipeline grid and development of City gas Distribution networks enroute and on Pan-India basis.

As part of pricing reforms for the natural gas sector, the government approved a new pricing scheme to align domestic prices with international market prices and to promote investment in the sector.

- The Domestic natural gas pricing guidelines were notified in year 2014 with a revision cycle of every six months based on a formula that takes into account the volume consumed in USA & Mexico, Canada, EU & Former Soviet Union Countries, Russia and prevailing hub prices at Henry Hub (United States), Alberta (Canada), NBP (United Kingdom) and Russia. The price determined under this policy was made applicable to all sectors uniformly with allocation made as per Government of India in the order of priority.
- In 2016, with the objective of increasing domestic production of natural gas and to move towards gas-based economy, Government of India, notified the Marketing including pricing freedom for the gas to be produced from Discoveries in Deepwater areas, Ultra Deepwater areas and High Pressure High Temperature (HPHT) areas.
- The pricing from these Difficult fields is subject to ceiling price as notified by Government of India every six months based upon the lowest of (a) landed price of imported fuel oil (b) weighted average landed price of substitute fuels (30% imported coal, 40% imported fuel oil and 30% imported naphtha) and (c) landed price of imported LNG.

In line with the vision of reducing hydrocarbon import dependency by 10% by 2022, Government of India launched discovered Small Field Policy (DSF) in 2016 and to effectively exploit the untapped established reserves locked-in for years in a time bound manner.

Further, Gol launched Hydrocarbon Exploration and Licensing Policy (HELP) with Open Acreage Licensing (OALP) feature which was formally launched in 2017 with the clear objective of boosting the production of oil & gas in the Indian sedimentary basin.

Apart from efforts to enhance gas supply as mentioned above, Government of India (Gol) emphasised creation of Natural Gas Grid and City Gas Distribution networks along with National Policy on Biofuels 2018 facilitating setting up of Compressed Biogas (CBG) Plants.

### Growth in Fertiliser sector:

India is one of the world's largest consumers of crop nutrients, which results in high requirement of urea for agricultural purposes. Urea imports surged between FY17 to FY21 due to increasing demand compared to local supply. India halted urea imports from Iran in 2019 due to tough U.S. sanctions on Tehran and therefore, India turned to countries such as China, Ukraine and Russia to meet its demand for the crop nutrient. China is one of the largest producers of fertiliser in the world with 31% of the global urea capacity and 42% of the Di-Ammonium Phosphate (DAP) capacity. However, the import is expected to fall from FY22 due to restrictions imposed by exporters like China and blocking of supply chains from Russia along with the increase in domestic manufacturing capacity (Gol plans to reduce import dependency by scaling domestic production of urea). Several Chinese fertiliser players have been directed by the Chinese government to suspend fertiliser exports to meet the robust domestic demand amid rising domestic prices driven by limited supplies and rising energy costs. The ongoing Russia-Ukraine issue has added to further uncertainties over supplies and prices.

To reduce import dependence, the Govt has framed an investment-friendly policy for the fertilizer sector to encourage domestic production of urea. Gol's focus on scaling up the urea manufacturing has supported the consistent increase of LNG share in the urea production.

Fertilizer sector has exhibited increasing consumption of natural gas over past few months. During April 2021 to March 2022, the sector consumed 49.53 MMSCMD of natural gas (~30% India's total consumption of 163.06 MMSCMD). Out of 49.53 MMSCMD of natural gas, the share of LNG import was 33.87 MMSCMD. Further, the consumption is expected to grow with the addition of new (revived) fertilizer plants at Gorakhpur, Barauni and Sindri. These plants are expected to add 6-7 MMSCMD (close to 2 MMTPA) of LNG demand in coming 5-6 months which will further enhance the growth of natural gas industry.

### **Development of CGD network on Pan India basis:**

For the development of downstream sector, the Petroleum Natural Gas Regulatory Board (PNGRB) has launched multiple rounds of City Gas Distribution (CGD) bidding till date with latest being round 11-A which is currently in progress for development of CGD Network. Upon implementation of all the Geographical Areas (GAs), approximately 88% of the country's area would be covered under the ambit of CGD Network thereby providing access of natural gas to approximately 98% of country's population.

The CGD auction rounds are being done to shift demand in India from more polluting fuels at an industrial, commercial, residential and transport levels to a cleaner fuel in the form of natural gas.

As on end of March 2022 (Source: PPAC), the CGD network stands at:

- 93,02,667 domestic household connections (i.e. y-o-y growth of 19% from 78,20,387 as on end of March 2021)
- 4,433 CNG stations (i.e. y-o-y growth of 43 % from 3,101 as on end of March 2021)
- 34,854 Commercial connections (i.e. y-o-y growth of 8% from 32,339 as on end of March 2021)
- 13,215 Industrial connections (i.e. y-o-y growth of 12% from 11,803 as on end of March 2021)

### **National Gas Grid:**

Another major infrastructure development initiative taken up by the Government is the development of the National Gas Grid i.e. One Nation, One Gas Grid. With the aim to create nationwide gas grid, Petroleum and Natural Gas Regulatory Board (PNGRB) has authorized approximately 34,135\* kms natural gas pipeline network across the country, as on 31.03.2022. The National Gas Grid would connect all major demand and supply centres in India. This would ensure easy availability of natural gas across all regions and potentially help to achieve uniform economic and social progress. As on 31<sup>st</sup> March 2022, a total of 21,715 km of natural gas pipelines are operational and 14,240 km are under various stages of construction. Development of Pradhan Mantri Urja Ganga and Northeast Gas Grid (being implemented by Inradhanush Gas Grid Limited) will expand and extend the National Gas grid on pan country basis.

### **Regasification LNG terminals**

One important component of the integral gas infrastructure in India is the Regasification Terminals. Since India is a gas deficit

country and relies heavily on LNG imports, Regasification Terminals play an important role in the country's gas development plans. The total regasification capacity in India is 42.7 MMTPA. Connection of any of the RLNG terminals with National Gas grid and the notification of unified tariff for gas pipelines shall act as critical enablers for the capacity utilisation to improve.

There are new Regasification projects in the pipeline at various locations namely Jaigarh, Dhamra, Jafrabad, Chhara, PLL's greenfield FSRU based LNG terminal on East Coast along with expansion of Petronet's existing regasification terminals at Dahej from existing 17.5 MMTPA to 22.5 MMTPA. It is expected that with all these new terminals and expansion coming online in coming few years from now, the total regasification capacity in India will increase from 42.7 MMTPA to 72.7 MMTPA in near future. Considering, GoI has set a target of increasing share of natural gas from present 6.7 % to 15 % in the Primary Energy basket by year 2030 and to make India a gas-based Global manufacturing hub/economy, there will be substantial increase in gas demand to around 550 MMSCMD (152 MMTPA) by end of this decade (year 2030).

To cater to growing gas requirement of India, LNG imports are expected to increase from around 50% in year 2022 to 75% in the year 2030, which would need commensurate development and enhancement of LNG re-gas infrastructure to around 150 MMTPA (considering 80% utilization rate).

### **Gas Pipeline Tariff Reforms – Unified Tariff**

PNGRB has simplified the country's gas pipeline tariff structure to make the natural gas more affordable for distant users. It has notified regulations (Determination of Natural Gas Pipeline Tariff) for calculation of 'unified tariff' and once implemented, there will be a 'unified' tariff structure (only two-zone namely Zone-1 of 300-km from the source of gas and Zone-II beyond 300 kms) for 14 natural gas pipelines as part of national gas grid system.

This Unified tariff mechanism will make the natural gas more affordable for distant users by reducing the transportation tariff for consumers in the hinterland and would help create a single gas market in the country by attracting investment to complete the gas grid unlike the existing system which has cascading tariff of multiple pipelines.

This will also support availability of economical gas access to the end consumers through the recently launched gas exchange that may require gas swapping.

### **Developing a gas hub for India:**

Indian Gas Exchange Ltd. (IGX) is an automated national level Gas Exchange to promote and sustain an efficient and robust Gas market and to foster gas trading in the country.

Like developed economies, need was felt to have a platform wherein gas trading and pricing could be determined through dynamics of demand and supply in free and transparent manner. This was possible only if a transparent and user-friendly platform was created and maintained in an efficient manner to maintain market integrity. With this endeavour IGX was formed and which has been operating since 10<sup>th</sup> December 2020 after its first start on 15<sup>th</sup> June 2020. The Exchange operates under the

regulatory framework of Petroleum and Natural Gas Regulatory Board (PNGRB) and IGX has received authorization from the PNGRB under the Gas Exchange Regulations 2020.

The trade at IGX has been growing over last one year reflecting confidence of both Sellers and Buyers, which include gas marketers as well as gas consumers. In long run, IGX is expected to set benchmark for Gas prices in India like NBP and TTF and prices for both domestically produced natural gas and LNG may be determined through Gas Exchange.

### **LNG as Transportation Fuel - PNGRB Public Notice June 2020:**

PNGRB vide Public Notice dated 02.06.2020 concluded that any entity can set up an LNG Station in any Geographical Area (GA) or anywhere else, even if it is not the authorized entity for that GA. However, such entity shall comply with the Act and the extant Regulations of the Board, such as T4S Regulations. In respect to this, PLL has been working aggressively to promote LNG as an automotive fuel in the Country and has been trying to expeditiously develop the relevant infrastructure and ecosystem by setting up LNG Dispensing stations on major national highways to cater to LNG demand in Automotive sector for long haul vehicles across India. PLL is also in advance stage of commissioning of four LNG dispensing stations i.e. three locations in Tamil Nadu and one location in Karnataka.

### **Future prospect in Indian gas Sector and PLL's role:**

With pricing freedom & liberalization, there has been an increase in Domestic gas production as well as increase in Gas consumption.

With strong growth of gas demand in India and the various reforms initiated by Government of India and to cater to growing LNG requirement, PLL is expanding its flagship Dahej terminal from existing 17.5 MMTPA to 22.5 MMTPA over next 2 to 3 years. Further, PLL is planning to set up a greenfield LNG Receiving and Regasification Terminal (FSRU based) at East Coast of India with an initial regasification capacity of 4 MMTPA with a provision to convert it into land-based LNG terminal as per the needs of growing gas market. Plans are also on anvil to set up a Propane Dehydrogenation (PDH) and Polypropylene (PP) Petrochemical Complex having installed capacity of 750KTA PDH and 500 KTA PP, including ethane and propane tanks and its associated facilities at existing land adjoining its Dahej Terminal.

### **Internal Control Systems and their Adequacy**

The Company has a robust system of the Internal Financial Controls (IFC) and its monitoring. The IFC framework and the Risk Matrix (RCM) for various business processes are in place and are reviewed by the management and Audit Committee continuously. Independent professional agency is engaged for IFC testing. The IFC system ensures compliance of all applicable laws and regulations; optimum utilisation and safeguard of the company's assets; and accuracy and completeness of financial records/reports.

### **Financial Performance**

During FY 2021-22, your Company achieved highest ever turnover, PBT and PAT. The turnover of FY 2021-22 stood at

Rs.43,169 Crore as against Rs.26,023 Crore in FY 2020-21. PBT stood at Rs 4,474 Crore in FY 2021-22 as against PBT of Rs 3,968 Crore in FY 2020-21. PAT was Rs 3,352 Crore during FY 2021-22 as against PAT of Rs 2,949 Crore in FY 2020-21. The Company was able to achieve robust financial results owing to efficient commercial management, in spite of high and volatile spot gas prices during the year. Net worth of your Company has increased from Rs 11,649 Crore as on 31<sup>st</sup> March, 2021 to Rs 13,425 Crore as on 31<sup>st</sup> March, 2022.

A summary of the comparative financial performance in the fiscal year 2021-22 and 2020-21 is presented below: (Rs. in crore).

### **Human Resources**

Your company believes that every employee has extraordinary potential and unlocking any such untapped talent through meaningful intervention is the company's path to excellence. In the last two and half decades, Petronet LNG has been at the forefront of adopting innovative HR practices to stay connected with its most critical source of success "Human Resources". The foundations of our HR practices have always been on "Trust" and "Integrity", and those are part of PLL's core value system.

We live in uncertain times and the Covid-19 pandemic has ripped apart a big hole in our notion of development when the entire world could not fathom how to effectively tackle the biggest health crisis of the century. Among these testing times, your company's steadfast commitment to its people proved effective and we came out of this whole challenge almost unscathed. Nevertheless, the company's resolution to the well-being of its employees became stronger and while re-designing the HR Policies, special focus has been given to strengthening the Social Security Schemes to ensure the welfare of employees' families in the face of adversity. In this regard, not only your company enhanced the Insurance coverage under its "Group Term Life Insurance" but also introduced a contributory scheme to provide relief to employees/dependents in the event of permanent disablement/death called "Tatkal Sahayata Yojna". Your company also redesigned its Performance Management Policy and Career Progression Policy keeping employees' aspirations in mind while not compromising on its ethos of performance-driven work culture.

On the developmental aspect of employees, the Covid-induced restrictions created few challenges, however, through a combination of Online and Offline programmes, the targeted 5 average man-days of training for employees have been achieved. In this endeavour, your company partnered with IIMs, Dale Carnegie Institute, IMI etc., among others.

Your company believes diversity is the very essence of the human race and it should be cherished and celebrated. Petronet LNG has a zero-tolerance policy toward any attempt to subvert the principles of inclusion embedded in its policies and practices. During the year training was imparted to most of the employees to sensitise them on provisions contained in PoSH Act.

### **Disclosure by Senior Management Personnel, i.e. One Level below the Board including all HODs**

None of the senior management personnel has financial and/or commercial transactions with the company. They do not have any personal interest that would have a potential conflict with the interest of PLL at large.

### **Details of significant changes in key financial ratios**

<b>Ratios</b>			
<b>Particulars</b>	<b>2021-22</b>	<b>2020-21</b>	<b>Changes (%)</b>
Debtor Turnover Ratio	17.90	13.82	-29
Inventory Turnover Ratio	156.35	61.47	154
Interest Coverage Ratio	15.10	12.81	18
Current Ratio	3.18	3.93	-19
Debt Equity Ratio *	0.26	0.31	18

Operating Profit Margin (%)	11.10	16.54	-33
Net Profit Margin (%)	7.77	11.33	-31

\* Debt includes Lease Liability as per Ind AS 116 of Rs 341,550 Lac as on 31<sup>st</sup> March, 2022 (Rs 358,853 Lac as on 31<sup>st</sup> March, 2021), which constitutes about 99% of the total Debt

The change in the above ratios is mainly attributable to the increase in LNG prices that resulted in significant increase in revenue and cost of material consumed as compared to the previous financial year. However, this has not impacted the Company's profitability, as the purchase costs are pass through to customers.

The Company's return on net worth is 26.74% in FY 2021-22 (26.10% in FY 2020-21). Change in the above ratio is on account of volumes processed and other factors including margins earned on trading volumes, efficiency in operations etc.

### **Conclusion and Outlook:**

In 2022, demand growth is expected to accelerate on the back of strong GDP growth, expanding infrastructure, rising domestic production and a supportive policy environment.

As far as outlook of natural gas is concerned, going forward Natural Gas is likely to be at centre stage, as India along with World is now undergoing through a phase of major energy transition with focus on cleaner and newer forms of energy. In this focus, Natural gas is a reliable, globally available in abundance and lowest emission fossil fuel. Natural gas is also the most suited energy source and will act as a bridge over next 3 to 4 decades between old age Fossil Fuels and Renewables. Since Renewables (solar and wind) are cyclical in nature and have storage related challenges, Natural Gas and Renewables are going to stay together to complement each other, which shall cater to the growing need of energy and displacement of polluting fuels.

In view of India's commitments made at COP-26 to achieve the target of transition to Net Zero Emissions by 2070, it is very important, that globally investment continues in the entire LNG value chain to ensure energy security and sustainability of the energy transition process.

# REPORT ON CORPORATE GOVERNANCE

## REPORT ON CORPORATE GOVERNANCE FOR THE FINANCIAL YEAR 2021-22

### Company's Philosophy on Corporate Governance

The Philosophy of the Company for Corporate Governance is to ensure transparency, disclosures and reporting that conforms fully to laws, regulations and guidelines, and to promote ethical conduct throughout the organization with primary objective of enhancing shareholders' value while being a responsible corporate citizen. The Company firmly believes that any meaningful policy on the Corporate Governance must provide empowerment to the executive management of the Company and simultaneously create a mechanism of checks and balances which ensures that the decision-making power vested in the executive management are used with care and responsibility to meet stakeholders' aspirations. The Company is committed to attain the highest standards of Corporate Governance.

### Board of Directors

The Board is entrusted with the responsibility of the management of general affairs, directing performance and long-term success of business as a whole. The Board reviews and approves management's strategic plan and business objectives and monitors the Company's strategic direction. The Board of Directors function in accordance with the powers delegated under the Companies Act, 2013, SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015 {hereinafter referred as SEBI LODR}, Memorandum & Articles of Association of the Company and other guidelines issued by the Government of India from time to time, as may be applicable on the Company.

### Size and Composition of Board of Directors

The Board of your Company has a mix of executive and non-executive directors. The composition of the Board represents an optimal mix of professionalism, knowledge and experience and enables the Board to discharge its responsibilities and provide effective leadership to the business. SEBI LODR stipulates that where the chairperson of the board of directors is a non-executive director, at least one-third of the board of directors shall comprise of independent directors. Since the Chairman of the Board of Petronet is non-executive, therefore, one-third of the total strength of Directors must comprise Independent Directors.

As on 31<sup>st</sup> March 2022, the Board comprised 14 Directors which included a non-executive Chairman, three Executive Whole-time Directors including Managing Director & CEO, five Nominee Directors and five Independent Directors including one Independent woman Director. As on 31<sup>st</sup> March, 2022, the Company is in compliance with the mandatory requirements of SEBI LODR and the Companies Act, 2013 pertaining to composition of Board of Directors.

The Articles of Association of the Company stipulates that the number of Directors shall not be less than four and not more than eighteen.

Details of the Board of Directors as on 31<sup>st</sup> March 2022 including details of directorships & Membership/ Chairmanship of Committees of Directors are as follows:

## Board Meetings

The Board meets at regular intervals to discuss and decide Company's business policy and strategy apart from other businesses. The Board oversees implementation of business policies for attaining its objectives. The Board has constituted various committees to facilitate the smooth and efficient flow in decision-making process.

The meetings of the Board of Directors are convened by giving appropriate advance notices. To address any urgent needs, sometimes Board meetings are also called at a shorter notice subject to observance of statutory provisions. In case of urgency, resolutions are also approved through circulation, as per the statute. Detailed agenda notes, management reports and other explanatory statements are normally circulated as per statutory requirements in a defined format amongst the Board Members for facilitating meaningful, informed and focused discussions in the meeting. In exceptional cases, where it is not possible to circulate documents in advance, the same are tabled during the meeting with the approval of the Chairman and with the consent of a majority of the Directors present in the Meeting, including at least one Independent Director present at the meeting.

The meetings of the Board of Directors are generally held at the Company's registered office at New Delhi. Video- conferencing facility is also provided to facilitate Directors at other locations to participate in Board / Committee meetings.

During the Financial year 2021-22, nine (9) meetings of the Board of Directors were held and the gap between any two meetings was not more than 120 days. Attendance of each Director at the Board Meetings and at the last Annual General Meeting held during the financial year 2021-22 is given below:

### Confirmation by the Board with respect to Independence of Independent Directors

Based on the disclosures received from all the Independent Directors, the Board opined that all the Independent Directors fulfilled the criteria of independence as specified in Companies Act, 2013 as well as in SEBI LODR and are independent of the management.

### Separate meeting of Independent Directors

As per statutory requirements, the Company arranges for separate meetings of Independent Directors every year. During the financial year 2021-22, separate meeting of Independent Directors was held on 8<sup>th</sup> September 2021 to discuss the matters as per the statutory requirements such as assessing the quality, quantity and timely flow of information between the Company management and the Board that is necessary for the Board to effectively and reasonably perform their duties.

### Familiarisation Programmes for Independent Directors

All new Independent Directors are taken through a detailed induction and familiarisation program when they join the Board of your Company. Through familiarization programmes, Independent Directors are provided insights of the Company including nature of industry in which the Company operates, business model of the Company, constitution of the Board, Board procedures, matters reserved for the Board and major risks facing the business and mitigation programs. The Independent Directors are also made aware of their roles and responsibilities at the time of their appointment.

The details of familiarization programmes attended by Independent Directors is available on the website at: [https://www.petronetlng.in/Familiarisation\\_Programme.php](https://www.petronetlng.in/Familiarisation_Programme.php).

## Performance Evaluation of the Board

In terms of the requirement of the Companies Act, 2013 and the Listing Regulations, an annual performance evaluation of the Board is undertaken where the Board formally assesses its own performance with the aim to improve the effectiveness of the Board and the Committees.

The Board has adopted a formal mechanism for evaluating its performance and as well as that of its Committees and individual Directors, including Chairman of the Board. An exercise is carried out through a structured evaluation process considering various aspects of the Board's functioning such as composition of Board and Committees, experience and competencies, performance of specific duties and obligations, contribution at the meetings and otherwise, independent judgment, governance issues etc.

## Succession for appointments to the Board and Senior Management

The Company has well defined plans for orderly succession for appointment to the Managing Director & CEO and Whole-time Directors on the Board as well as Senior Management.

## Compensation Policy

A Compensation Benchmarking Survey is periodically done to assess the competitiveness of total remuneration which is being paid to Directors, Key Managerial Personnel and Senior Management.

The outcome of the same is presented before Nomination and Remuneration Committee to assess the reasonableness to attract, retain and motivate Directors and other senior managerial personnel.

## Compliance Report

During the Financial year 2021-22, the Company has complied with all the applicable laws except the statutory requirements regarding the composition of the Board in the following manner:

Period	Non-Compliance
31.03.2021 to 12.08.2021	Not having woman Independent Director on the Board
31.03.2021 to 12.08.2021 and from 02.11.2021 to 08.02.2022	Not having sufficient number of Independent Directors on the Board.

Further, for the period from 02.11.2021 to 23.12.2021, there were only two non-executive directors in the Nomination and Remuneration Committee of the Board and also during this period, there was only one Independent Director in the Nomination and Remuneration Committee (NRC) as against the requirement of two Independent Directors. However, no meeting of NRC was held during the period from 2.11.2021 to 23.12.2021.

However, consequent upon appointment of adequate number of Independent Directors on the Board of the Company and reconstitution of the Nomination and Remuneration Committee, the Company complied with the SEBI Listing Regulations.

The Board has reviewed compliance report of all the laws applicable to the Company and the steps taken by the Company to rectify instances of non-compliances.

## Policy on Whole-time Directors' Appointment and Remuneration

Pursuant to Article no. 109 and 111 of the Articles of Association of the Company, the Board may appoint Managing Director & CEO and other whole-time Directors subject to provisions of Section 203 and other applicable provisions of the Act.

The NRC of the Board finalizes the qualification, age, experience and other relevant criteria for the position under consideration and the notification for the vacant position is circulated in advance. Based on the suitability of the candidates, the Search Committee of the Board shortlists candidates for personal interaction and recommends potential candidates in order of merit to the Nomination and Remuneration Committee which in turn makes its recommendations to the Board. The final recommendation, with suitable compensation and other terms for appointment, is then approved by the Board, subject to confirmation by the shareholders in the general meeting.

The initial tenure of Managing Director & CEO and Whole - time Director(s) is for a period of five years w.e.f. their respective date of appointment. However, the tenure of Whole - time Directors may further be extended by re-appointing them, subject to approval of Board as well as Members of the Company.

The appointment of Managing Director & CEO and Whole-time Directors is subject to termination by a three months' notice in writing by either party.

The tenure of Nominee Directors is not certain as they are being nominated by their respective organizations. However, in case of Independent Directors, the initial tenure of appointment is three years.

## Remuneration paid to Managing Director & CEO, Whole-Time Directors and Non-Executive Directors for the Financial year 2021-22

# PLL is in the niche business of transportation, storage and regasification of LNG, and supplies its product to a few select customers including GAIL, IOCL, ONGC and BPCL. Considering the nature of Company's business, these aspects are not as critical for us as probably for certain other sectors and industries. Nevertheless PLL does not take these aspects lightly, and has sufficient focus on these aspects. The Company is taking appropriate actions as and when required to address them comprehensively.

## PLL strictly adheres to all applicable labour laws and other statutory requirement in order to uphold human rights within its organizational boundary. Further, the Company has also formulated Sexual Harassment Policy under Sexual Harassment of Women at Workplace (Prevention, Prohibition & Redressal) Act, 2013.

\*Relevant internal and external stakeholders were consulted, as deemed appropriate, during the formulation of the policies.

\*\*The Company undertakes need-based advocacy on certain industry specific issues. It will continue to assess the evolving business and regulatory environment in future in this regard.

\$ PLL has processes in place for customer engagement and grievance redressal. Further, the Company gives the highest priority to responsibility towards its customers.

### 3. Governance related to BR:

- **Indicate the frequency with which the Board of Directors, Committee of the Board or CEO to assess the BR performance of the Company. Within 3 months, 3-6 months, Annually, More than 1 year.**

Being in the energy sector, PLL recognizes the importance of sustainable growth and need for judiciously utilizing the planet's depleting natural resources. In this regard, PLL has received high corporate values from its principal promoters including GAIL, ONGC, IOCL and BPCL, who are all amongst the leading sustainability champions in India. PLL's Board constitutes of representatives from all these institutions which puts sustainability high on the Board agenda. As part of our risk and compliance

mapping exercises, company ensures regular evaluation of the sustainability performance and risks as well, which are all presented to our leadership and Board for their consideration and decision making. Our Board reviews Company's sustainability performance on continual basis, at least once annually.

- **Does the Company publish a BR or a Sustainability Report? What is the hyperlink for viewing this report How frequently it is published?**

Since FY 2012-13, PLL has been releasing its Business Responsibility Report in line with the SEBI mandate. The previous report was released for FY 2019-20 and formed part of the Company's Annual Report 2019-20. The same can be assessed at <https://petronetlng.in>

## Section E: Principle-wise Performance

**Principle 1:** Businesses should conduct and govern themselves with Ethics, Transparency and Accountability.

- (i) **Does the policy relating to ethics, bribery and corruption cover only the Company? Does it extend to the Group / Joint Ventures / Suppliers / Contractors / NGOs / Others?**

The Company believes in the conduct of the affairs of its constituents in a fair and transparent manner by adopting highest standards of professionalism, honesty, integrity and ethical behaviour. Company's commitment to ethical and transparent corporate governance practices are highlights of the Code of Conduct and Business Ethics policies which are laid out for Board members and Senior Management personnel. Board members and Senior Management personnel affirm compliance to the code on annual basis, including during last financial year. The Company would like to ensure that all the employees are aware about the policies and procedures of the company relevant to their respective areas of operation so as to enable them to take proper and effective decisions. Company also have checks and balances in place to ensure ethical business conduct across its operations. Further, PLL has safeguards in place which discourages bidders to engage in any corrupt practices during tendering process.

The company, as a responsible corporate citizen, believes that the role of reporting genuine concerns is not just restricted to employees, in fact any of the stakeholder which also includes suppliers, customers, civil society members etc. have the right to point out any unethical behaviour, actual or suspected fraud or violation of Company's code of conduct. Therefore, Petronet Vigilance Mechanism and Vigil Mechanism are established. The same has also been hosted at the website of the Company.

To strengthen company's commitment against workplace harassment, PLL has come out with sexual harassment order in line with the sexual harassment of women at workplace act 2013, which is stringently governed and enforced across the organization.

- (ii) **How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.**

PLL received 3674 shareholder complaints during the FY 2020-21, no complaint was pending from previous financial year. 3674 complaints were successfully resolved during the year while NIL complaint was pending as on 31<sup>st</sup> March, 2021.

**Principle 2:** Businesses should provide goods and services that are safe and contribute to sustainability throughout their life cycle.

- (i) **List up to three of your products or services whose designs have incorporated social or environmental concerns, risks and / or opportunities.**

For your company, primary product portfolio remains import, storage and regasification of Liquefied Natural Gas. We are not involved in manufacturing of any product and, hence,

the environmental impacts emerging from our activities are minimal. Further, our product is transported through massive tanker ships and gas pipelines thus reducing transport related environmental footprint. However, we are still committed to ensure responsible handling and marketing of our product, and hence have in place state of the art product handling equipment at our facilities. During the FY 2021- 22 period, no change has transpired in our product and services portfolio, neither has there been any substantial change in our operational footprint. We comply with all existing regulations of the concerned land. Also, for supply to local vendors, PLL ensures that transportation does not pose unintended harm to the environment and to persons involved in road transportation.

- (ii) **For each such product, provide the following details in respect of resource use (energy, water, raw material and so on) per unit of product (optional):**

- (a) **Reduction during sourcing / production / distribution achieved since the previous year throughout the value chain.**

PLL operates two terminals in India at Dahej, Gujarat and Kochi, Kerala, which apply state of the art technology for ensuring safe and efficient operations. PLL has strong focus on managing and reducing its energy, water and waste footprint, and is in constant lookout for improvement opportunities. Some interventions taken in this regard during the include implementation of ISO 14001 and OHSAS 18001 standardization systems at our Dahej and Kochi terminal, reducing overall dependence on direct fuel consumption at our operational sites. Also, efforts such as use of food waste generated on site for vermin composting, use of condensate water from operations for gardening purposes and use of chilled water from plant operations for air conditioning in the building have allowed us to improve upon our resource use efficiency.

- (b) **Reduction during usage by consumers (energy, water) has been achieved since the previous year?**

PLL believes that increasing the share of natural gas in the country's energy mix will lead to a transition to a low carbon growth. This belief comes from the fact that natural gas and renewable energy sources are often considered to be supplementing each other. Natural gas, which is the major product of PLL, does not produce significant amounts of solid waste, air emissions in form of nitrogen oxides and carbon dioxide are also of lower quantities than those produced from coal or oil. Emissions from natural gas in form of sulphur dioxide and mercury are negligible. These characteristics make LNG a cleaner fuel and helps PLL and consumers in reducing their carbon footprint. Further, PLL has started the supply of LNG to customers through road transportation. The approach would be suited for customers not connected though gas pipelines, and with medium to small requirements. The hubs developed for these purposes can further be used for supplying PNG and CNG to customers.

**(iii) Does the Company have procedures in place for sustainable sourcing (including transportation)? If yes, what percentage of your inputs was sourced sustainably? Besides, provide details thereof in about 50 words or so.**

Your company promotes sustainable practices across various functions of the Company. Company's raw material "LNG" is transported from international supplier's sites through large tanker ships to company terminals in Dahej, Gujarat and Kochi, Kerala. The final regasified product is transported to customers through installed pipelines and small fraction of LNG is transported through trucks primarily to the customers not connected through pipelines. These modes of transportation are considered highly clean and sustainable. The product has the least carbon emission amongst fossil fuels. Here, in addition to applicable maritime and other regulations, procedures and practices are strictly followed and monitored throughout the product transport and supply phases.

**(iv) Has the Company taken any steps to procure goods and services from local and small producers, including communities surrounding their place of work? If yes, what steps have been taken to improve the capacity and capability of local and small vendors?**

PLL's procurement approach is based on least price tendering mechanism. Company selects its vendors based on carefully designed evaluation criteria set for each good and service to be procured. In this regard, competent local vendors are given equal preference as any other, and as applicable they are invited for the tendering process.

**(v) Does the Company have a mechanism to recycle products and waste? If yes, what is the percentage of recycling them (separately as <5%, 5-10%, >10%)? Besides, provide details thereof in about 50 words or so.**

In your company, product portfolio remains import, storage and regasification of Liquefied Natural Gas, ours facilities are not manufacturing centres but storage and regasification terminals. Our operations consume minimal raw materials and resources and generate minimal waste. As a result there are no formal written mechanisms for recycling products and waste generated. However, some quantities of used oily waste is generated annually during periodic maintenance of various equipment, i.e. waste oil, oil contaminated cloth, oil drums etc. Some quantities of paint and biomedical waste is also generated. All this generated waste is properly collected, stored and disposed through authorized agencies on regular intervals. Also it is significant to mention here that while carrying out our operations, there is no waste water generation. Some amount of reject condensate water generated from our air-heaters is used for gardening purposes, and also as back up source for fire emergencies. Both our terminal sites are zero water discharge.

**Principle 3:** Businesses should promote employee well-being

	Employees with Disabilities	0	0	

**Principle 4:** Businesses should respect the interests of, and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalised.

**(i) Has the Company mapped its internal and external stakeholders? Yes / No**

PLL has always acknowledged the vital contribution of all stakeholders in building a sustainable business. The Company has identified and mapped its key internal and external stakeholders, and employs various mechanisms and practices to facilitate effective dialogues with them for a fruitful and continued relationship. In order to identify material concerns and respond to them in an effective and transparent manner, PLL regularly engages with its community stakeholder group, including those falling under disadvantaged, vulnerable and marginalized category, at and near its sites of significant operations, i.e. Dahej, Gujarat and Kochi, Kerala. The learnings from these interactions are used for better designing of Company's CSR projects for ensuring their optimal benefits to communities.

**(ii) Out of the above, has the Company identified the disadvantaged, vulnerable and marginalised stakeholders?**

PLL has mapped and identified under privileged communities around its business location and is actively working with them towards inclusive growth. The Company's collaborative partnerships with the communities aimed at uplifting disadvantaged, vulnerable and marginalized stakeholders has led to identification and initiation of various CSR projects. The Company has projects solely targeted at improving the quality of life of persons with disabilities who are marginalized, vulnerable and disadvantaged.

**(iii) Are there any special initiatives undertaken by the Company to engage with the disadvantaged, vulnerable and marginalised stakeholders? If so, provide details thereof, in about 50 words or so.**

The Company, having identified the needs and priorities of the stakeholders in and around the location of its operations, is running education, healthcare, community infrastructure development and skill and livelihood development projects. Under the Company's education and empowerment initiatives, PLL promoted skill development of below poverty line youth. Catering to the healthcare needs of the communities, PLL organized free medical check-up and consultation camps under healthcare drive, and contributed towards construction of healthcare infrastructure facilities. Further, PLL has constructed and renovated toilets at local schools under sanitation drives. Furthermore, during financial year, PLL developed roads, culverts, storm water drains, solar lights, constructed community and school toilets, etc. under infrastructure development initiatives.

**Principle 5:** Businesses should respect and promote human rights

**(i) Does the policy of the Company on human rights cover only the Company or extend to the Group / Joint Ventures / Suppliers / Contractors / NGOs / Others**

As a socially responsible organisation, PLL believes in equality of all human beings irrespective of their nationality, place of residence, sex, national ethnic origin, colour, religion, language and any other status. Currently, there is no policy explicitly on human rights, however the Company respects and complies with internationally recognized human rights, at all locations and is committed to making certain that it is not complicit in human rights abuse.

In order to protect and guard human rights, PLL has designed a well organised and effective Grievance Redressal System to provide prompt and orderly resolution of complaints or disputes arising in the course of employment.

The Company has well defined processes and mechanisms in place to ensure that issues related to sexual harassment of women at workplace are effectively dealt with. An Internal Committee has been created at each location for the prevention, prohibition and redressal of sexual harassment complaints. These committees are headed by woman employees including a representative from an NGO, after approval of Competent Authority.

PLL has zero tolerance towards child and forced/ compulsory labour. The Company ensures that the employment is voluntary and in compliance with local minimum wage laws. Also, it is ensured that no person below the age of eighteen years is employed in the workplace.

**(ii) How many stakeholder complaints were received in the past financial year and what percent was satisfactorily resolved by the Management?**

No stakeholder complaints regarding breach of human rights aspects were received during the FY 2021-22.

**Principle 6:** Businesses should respect, protect, and make efforts to restore the environment.

(i) **Do the policies related to Principle 6 cover only the Company or extends to the Group / Joint Ventures / Suppliers / Contractors / NGOs / Others?**

The policies related to Principle 6 cover only to the Company and do not extend to the entity/entities with whom PLL does business. PLL's Quality, Health, Safety and Environment (QHSE) Policy is applicable to all employees and stakeholders involved in PLL's business. The senior management provide focused attention while reviewing all parameters related to HSE Standards. The Contractors are also required to monitor report and take strict actions on all such cases. The company regularly conducts audits through third party and enforces compliance to Audit findings. In order to further improve upon our environment and safety practices, we have acquired ISO Certification under the Integrated Management System at Dahej and Kochi terminals where ISO 9001:2008 Quality Management, ISO 18001:2007 OHSAS Management and ISO 14001:2004

Environment Management standards are effectively adhered to in each and every process of the company from housekeeping to the operation of the terminal. Further, we carry out Environment, Health and Safety (EHS) risk assessments regularly at Dahej and Kochi terminals.

(ii) **Does the Company have strategies/initiatives to address global environmental issues, such as climate change, global warming, and others? If yes, please give hyperlink for webpage and so on.**

PLL is not an environment-footprint heavy organisation, however PLL is conscious of the environmental impacts of the oil and gas industry. PLL strives to make efforts in meeting and addressing the challenges of climate change. PLL is aware of the impending consequences of climate change and the rising global concern of Green House Gas (GHG) reduction and management. In this regard company's biggest contribution is in the form of its product, i.e. natural gas, which is a cleaner form of fuel compared to fossil fuels, i.e. coal and petroleum products. Further, by improving natural gas availability, PLL contributes not only to serving country's energy needs but also attempts to minimize the impact on environment. Further, majority of PLL's raw material is transported through large tanker ships to Company terminals, while the final product is transported through installed pipelines. Both these modes of transportation are considered highly clean and sustainable. Besides, Company is in constant lookout for opportunities for reducing its own operational environmental footprint. The details about company's efforts and initiatives in the areas of environment protection and climate change management can be found in our sustainability reports at: <https://petronetlng.in/SustainabilityReport.php>

(iii) **Does the Company identify and assess potential environmental risks?**

PLL is conscious of its environmental footprint and is taking proactive steps to mitigate impact of its operations. Company does not have significant process emissions and

is generating condensate water as part of regasification of LNG process which is being used for productive internal activities like gardening. Further, as a precautionary approach towards the various environmental challenges, Company carry out studies to validate base line three season data as recommended by MOEF. Appropriate measures and systems to suppress NOx emissions, dust suppression by watering to restrict dust emission etc. are put in place.

Further, being active in the coastal belts of Dahej, Gujarat and Kochi, Kerala, PLL has identified benefits of mangrove plantation in the regions of highly salty and muddy waters. Mangrove is a halophyte, which is known as salt tolerant forest ecosystem. Some more benefits associated with mangrove plantation in coastal belts include its ability to act as natural wind and tsunami barrier for underlying villages and industries, its ability to bind soil and prevent erosion, and its ability to harbour, promote other flora and fauna in harsh coastal conditions and most importantly serves as indirect employment generative to local community. Further, these can grow in waterlogged clayey/ marshy soils, specifically in coastal intra tidal zones / river banks. PLL has so far signed MoUs with the Gujarat Ecology Commission and Forest Department, Government of Gujarat for undertaking mangrove plantation in the region. Realizing their benefits, mangrove plantation has been taken up near Dahej and Kochi Terminals.

(iv) **Does the Company have any project related to Clean Development Mechanism? If so, provide details thereof in about 50 words or so. Besides, if yes, mention whether any environmental compliance report is filed?**

Representatives of these organizations are present on PLL's Board ensuring constructive dialogue and sound decision making, thus removing scope for conflicts.

# INDEPENDENT AUDITOR'S REPORT

**To the Members of Petronet LNG Limited**

**Report on the Audit of the Standalone Financial Statements**

## **Opinion**

We have audited the accompanying standalone financial statements of Petronet LNG Limited (the "Company"), which comprise the balance sheet as at March 31, 2022 and the statement of profit and loss (including Other Comprehensive Income), statement of changes in equity and statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information prepared based on relevant records (hereinafter referred to as the "Standalone Financial Statement").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its total comprehensive income, its changes in equity and its cash flows for the year then ended.

## **Basis for opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Emphasis of Matters**

We draw your attention to note 15(ii) to the standalone financial statement regarding that pursuant to the relevant provision under long term regasification contracts entered into, the Company has booked income towards "Use or Pay charges" of Rs. 41,591Lacs in the financial year 2021-22 for Calendar year (CY) 2021 on account of lower capacity utilization by its customers. The balance confirmation/payment against the same is yet to be received. The management is confident that the payment would be recovered in due course.

Our opinion is not modified in respect of this matter.

## **Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

S. No.	Description of Key Audit Matter	Audit Procedures Undertaken to address the Key Audit Matter & conclusions thereon
1.	<p><b>Impairment testing of Kochi Plant</b></p> <p>The recoverable value of the Property Plant and Equipment's capitalized under Kochi Plant of the Company are dependent on future demand from Kochi Plant.</p> <p>The determination of recoverable amount of Kochi Plant is based on the value-in-use derived from future free net cash flow based on management assumptions of operations for the coming years and from the terminal period. Significant judgement is required by the Management in determining value-in-use, including discount rate to be applied and cash flow projections based on availability of pipeline, demand of gas etc.</p> <p>Accordingly, the impairment evaluation of Kochi Plant is considered to be a key audit matter.</p>	<p>We assessed the Company's process of assessing the impairment requirement for Kochi Plant by reviewing the Impairment Study Report, carried out by an outside consultant appointed by the Company, and for verification of the same, following tests were performed:</p> <ul style="list-style-type: none"> <li>Considered if the discounted cash flow models used to estimate the recoverable amount of Kochi Plant, based on "Value in Use" (VIU) were in consistent with Indian Accounting Standard.</li> <li>Considered whether the forecasted cash flows in the impairment model were reasonable and based upon supportable assumptions</li> <li>Performed tests of the mathematical accuracy of the impairment model calculations.</li> </ul> <p>We found management's assessment that there is no immediate case of impairment of Kochi Plant based on VIU is reasonable.</p>

S. No.	Description of Key Audit Matter	Audit Procedures Undertaken to address the Key Audit Matter & conclusions thereon
2	<p>Accuracy of recognition, measurement, presentation and disclosures of revenues and other related balances in view of requirement of Ind AS 115 "Revenue from Contracts with Customers"</p> <p>The application of Ind AS 115 requires certain key judgements including identification of distinct performance obligations and transaction price.</p>	<p>We assessed the Company's process of identification of distinct performance obligations and transaction price and for the same we selected sample contracts, covering all type of revenue recognized by the Company and performed the following procedures:</p> <ul style="list-style-type: none"> <li>• Considered the terms of the contracts to determine the transaction price specially to ascertain if there is any financing component in the arrangement where advances have been received from the customers.</li> <li>• Read, analysed and identified the distinct performance obligations in these contracts.</li> <li>• Compared these performance obligations with that identified and recorded by the Company.</li> <li>• Performed analytical procedures for reasonableness of revenues disclosed by type and service offerings.</li> </ul> <p>Based on the work performed, we found the management's assessment of determination of transaction price and identification of distinct performance obligation is reasonable.</p>
3	<p><b>Determination of credit impairment on trade receivables</b></p> <p>Trade Receivables are significant to the Company's financial statements. The Collectability of trade receivables is a key element of the company's working capital management. Due to complexity of contractual terms, as well as ongoing negotiations with customers, significant judgements are required to estimate whether any impairment provision is required against such receivable and accordingly, it was determined to be a key audit matter in our audit.</p>	<p><b>Our audit procedures in this area included the following:</b></p> <ul style="list-style-type: none"> <li>• Assessed the design, implementation and operating effectiveness of internal controls over Management's evaluation of the Expected Credit Loss on trade receivables including historical credit loss.</li> <li>• Reviewed contractual terms subject to which revenue recognised and trade receivables outstanding in the books.</li> <li>• Reviewed documents related to ongoing negotiation with the customers.</li> <li>• Discussion with management over recoverability of outstanding dues.</li> <li>• Reviewing the adequacy and completeness of the disclosures in financial statement.</li> </ul>
4	<p><b>Contingent liabilities;</b> There are various pending cases against which demand has been raised by different authority.</p>	<p>For legal and regulatory matters, our procedures included following:</p> <ul style="list-style-type: none"> <li>• Assessing the processes and control over legal matters;</li> <li>• Reviewing the Group's significant legal matters and other contractual claims;</li> <li>• Performing substantive procedures on the underlying calculations of potential liability;</li> <li>• Where relevant, reading external legal opinions obtained by management;</li> <li>• Where relevant, obtaining written confirmation from external legal counsels on the status of the cases</li> <li>• Reviewing the adequacy and completeness of the company's disclosures.</li> </ul> <p>Based on the work performed, we found the disclosures made by the management in financial statements are sufficient.</p>

#### Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Company's annual report (mainly Director's Report, Corporate Governance Report, Business Responsibility Report and Management Discussion and Analysis of annual report) but does not include the standalone financial statements and our auditor's report thereon. The other information in annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the standalone financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we have obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the information included in Annual Report, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with the governance and other appropriate action as may be required.

#### **Responsibilities of management and those charged with governance for the standalone financial statements**

The Company's Board of Directors is responsible for the preparation and presentation of these standalone financial statements that give a true and fair view of the Standalone financial position, Standalone financial performance, Standalone cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of standalone financial statement by the directors of the Company, as aforesaid.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. The Board of Directors are also responsible for overseeing the Company's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosures about the matters or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we give in the "**Annexure A**", a statement on the matters specified in paragraphs 3 and 4 of the Order

## **"Annexure B" as referred to in paragraph 2(f) of our report of even date**

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act") on the Audit of the Standalone Financial Statements for the year ended 31<sup>st</sup> March 2022**

We have audited the internal financial controls with reference to Ind AS financial statements of Petronet LNG Limited ("the Company") as of 31<sup>st</sup> March 2022 in conjunction with our audit of the Standalone Ind AS financial statements of the Company for the year ended on that date.

#### **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls with reference to Ind AS financial statements based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by The Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### **Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system with reference to Ind AS financial statements and their operating effectiveness. Our audit of internal financial control with reference to Ind AS financial statements included obtaining an understanding of internal financial control with reference to Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to Ind AS financial statements.

#### **Meaning of Internal Financial Controls Over Financial Reporting**

A company's internal financial control with reference to Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Ind AS financial statements includes those policies and procedures that:

- a) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- b) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- c) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls with reference to financial statements**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Ind AS financial statements to future periods are subject to the risk that the internal financial control with reference to Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to Ind AS financial statements and such internal financial controls with respect to financial statements were operating effectively as at 31<sup>st</sup> March 2022, based on the internal controls over financial reporting criteria established by the Company considering the essential components of internal controls stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

## **"Annexure A" referred to in our report of even date**

1. (A) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of Right to Use assets.  
 (b) The company has maintained proper records showing full particulars of intangible assets.
- (b) The Company has a regular program of physical verification of its Property, Plant and Equipment as per which assets are physically verified in a phased manner over a period of two years. In accordance with this program, fixed assets were physically verified during the year and no material discrepancies were noticed. In our opinion, the periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets.
- (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than properties where the company is a lessee) are held in the name of the Company.
- (d) The company has not revalued any of its property, plant and equipment (including Right of Use assets) and intangible assets during the year.
- (e) No proceedings have been initiated against during the year or are pending against the Company as at 31<sup>st</sup> March 2022 for holding any property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
2. (a) The inventory has been physically verified by the management at reasonable intervals. In our opinion and according to the information and explanations given to us, the coverage and procedure of such verification is appropriate having regards to the size of the Company and the nature of its operations. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories when compared with books of accounts.
- (b) According to the information and explanations given to us, the Company has been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, at points of time during the year, from banks on the basis of security of current assets. In our opinion and according to the information and explanations given to us, the quarterly returns or statements comprising stock statements filed by the Company with such banks till the date of this report are in agreement with the unaudited/audited books of account of the Company of the respective quarters and no material discrepancies have been observed having adverse impact on the bank.
3. (a) According to the information and explanations given to us, the company has not provided any loans or provided advances in the nature of loans, or stood guarantee, or provided security to any other entity except for guarantee of USD 30.51 lacs (outstanding balance as on 31<sup>st</sup> March 2022 amounted to USD 30.51 lacs) provided by the company against the refinancing of loan by one of its joint ventures.  
 (b) In our opinion, the investments made by the company and guarantee provided by the company during the year are, *prima facie*, not prejudicial to the Company's interest.  

The Company has not granted any loans or advances in the nature of loans, secured or unsecured, to companies, firm, Limited Liability Partnerships or other parties during the year and therefore, reporting under clause 3(iii) (c), (d), (e) and (f) of the Companies (Auditors Report) Order, 2020 are not applicable.
4. According to information and explanation given to us, the Company has not granted any loans, made investments or provided guarantees or securities that are covered under the provisions of sections 185 or 186 of the Companies Act, 2013, and hence reporting under clause (iv) of the Order is not applicable.
5. The Company has not accepted any deposits or amount which are deemed to be deposits and therefore reporting under Clause 3 (v) of the Order is not applicable.
6. We have broadly reviewed the books of accounts maintained by the Company pursuant to Rules made by the Central Government for the maintenance of cost records under Section 148(1) of the Companies Act, 2013 and are of the opinion that *prima facie*, the prescribed accounts and records have been maintained.
7. (a) The Company is generally regular in depositing with appropriate authorities, undisputed statutory dues including Provident Fund, Income Tax, Sales Tax, Service Tax, Custom Duty, Value Added Tax, Cess, Goods and Service Tax and other material statutory dues applicable to it. There were no arrears of undisputed statutory dues as at 31<sup>st</sup> March 2022, which were outstanding for a period of more than six months from the date they became payable. We are informed that there is no liability towards Employees State Insurance and Excise Duty for the year under audit.

- (b) According to the information and explanations given to us and as per the records of the Company, the dues of service tax, custom duty and income tax which have not been deposited/deposited under protest with the appropriate authorities on account of any dispute are given below:

\* Excluding amounts adjusted by respective taxation authority.

8. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).
9. (a) In our opinion, the Company has not defaulted in the repayment of loans or other borrowings or in payment of interest thereon to any lender during the year.
- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) The Company has not taken any term loan during the year and there are no unutilized term loans at the beginning of the year and therefore, reporting under clause 3(ix)(c) of the Order is not applicable.
- (d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have not been used during the year for long-term purposes by the Company.

- (e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiary or joint venture.
  - (f) The Company has not raised any loans during the year and hence reporting on clause 3(ix)(f) of the Order is not applicable.
10. (a) The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, paragraph 3 (x)(a) of the Order is not applicable.
- (b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.
11. (a) Based upon the audit procedures performed and information and explanations given by the management, we report that no fraud on or by the Company has been noticed or reported during the course of our audit.
- (b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- (c) As represented to us by the management, there were no whistle blower complaints received by the company during the year.
12. In our opinion and according to the information and explanations given to us, the Company is not a Nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable.
13. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Sections 177 and 188 of the Companies Act 2013 where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable Accounting Standards.
14. (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- (b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
15. According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into any non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable.
16. (a) In our opinion and according to the information and explanation given to us, the company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.
- (b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
17. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
18. There has been no resignation of the statutory auditors of the Company during the year.
- (a) On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
19. (a) In respect of other than ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount, to a Fund specified in Schedule VII to the Companies Act, 2013 before the date of this report and within a period of six months of the expiry of the previous financial year in compliance with second proviso to sub-section (5) of section 135 of the said Act. Further in respect of current financial year, there are no unspent amounts towards CSR on other than ongoing projects requiring a transfer to a Fund specified in Schedule VII

- (b) In respect of ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount as at the end of the financial year, to a Special account within a period of 30 days from the end of the financial year in compliance with the provision of section 135(6) of the Act.
20. According to the information and explanations given to us, and based on the CARO reports issued by the auditors of the subsidiary and joint venture included in the consolidated financial statements of the Company, to which reporting under CARO is applicable, provided to us by the Management of the Company and based on the identification of matters of qualifications or adverse remarks in their CARO reports by the respective component auditors and provided to us, we report that the auditors of such companies have not reported any qualifications or adverse remarks in their CARO report.

(All amounts are in Rupees lac, unless otherwise stated)

### **Nature and purpose of other reserves**

#### **General reserve**

Under the erstwhile Companies Act 1956, a general reserve was created through an annual transfer of net profit at a specified percentage in accordance with applicable regulations. Consequent to the introduction of the Companies Act 2013, the requirement to mandatory transfer a specified percentage of net profit to general reserve has been withdrawn.

#### **Remeasurement of defined benefit plans**

Remeasurements of defined benefit plans represents the following as per Ind AS 19, Employee Benefits:

- (a) actuarial gains and losses
- (b) the return on plan assets, excluding amounts included in net interest on the net defined benefit liability (asset); and
- (c) any change in the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability (asset)

## Notes to the Standalone Financial Statements for the year ended 31 March 2022

### 1. Reporting Entity

Petronet LNG Limited referred to as "PLL" or "the Company" is registered in India. The Company's registered office is at World Trade Centre, 1st Floor, Babar Road, Barakhamba Lane, New Delhi – 110001.

The Company was formed by Bharat Petroleum Corporation Limited ('BPCL'), GAIL (India) Limited ('GAIL'), Indian Oil Corporation Limited ('IOCL') and Oil and Natural Gas Corporation Limited ('ONGC') primarily to develop, design, construct, own and operate Liquefied Natural Gas ('LNG') import and regasification terminals in India. PLL was incorporated on 2 April 1998 under the Companies Act, 1956 and received certificate of commencement of business on 1 June 1998. The Company is involved in the business of import and regasification of LNG and supply to BPCL, GAIL, IOCL and others. Presently, the Company owns and operates LNG Regasification Terminals with name plate capacity of 17.5 MMTPA at Dahej, in the State of Gujarat and 5 MMTPA at Kochi, in the State of Kerala.

### 2. Significant Accounting Policies

The Company has consistently applied the following accounting policies to all periods presented in the financial statements.

#### i. Basis of preparation

These financial statements have been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard ('Ind AS'), prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued thereunder; and by the Institute of Chartered Accountants of India, as applicable and other accounting principles generally accepted in India.

These financial statements were authorised for issue by the Board of Directors on 11 May'2022.

#### ii. Basis of measurement

The financial statements have been prepared on a historical cost basis except the following items, which are measured on alternative basis on each reporting date:

- Certain financial assets (including derivative instruments) that are measured at fair value
- Defined benefit liabilities/(assets): fair value of plan assets less present value of defined benefit obligation

#### iii. Functional and presentation currency

These financial statements are presented in the Indian Rupee ('INR'), which is the Company's functional currency. All amounts have been rounded to the nearest lac, unless otherwise indicated.

#### iv. Use of judgements and estimates

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

##### a. Judgements

Information about the judgements made in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements have been given below:

- Leases: Whether an arrangement qualifies as a lease under Ind AS 116 and assessment of the lease term and discount rate. Judgement is exercised for assessing the lease term in arrangements where the option to extend or to terminate the lease exist. While doing so, the facts and circumstances are considered to decide economic merits and certainty of exercising an option.
- Classification of financial assets: Assessment of business model within which the assets are held and assessment of whether the contractual terms of the financial asset are solely payments of principal and interest on the principal amount outstanding.
- Identification of distinct performance obligation based on assessment of the products and services in the contract and based on certain factors, determining points of satisfaction of the obligation whether it is at a specific point or over a period.

## Notes to the Standalone Financial Statements for the year ended 31 March 2022

- Transaction Price determination: Transaction price could be fixed or variable with indexed based escalations. Transaction price is not adjusted for the time value of money in such cases where advances are received from customers to secure long term contracts.

### b. Assumptions and estimation uncertainties

Information about assumptions and estimation uncertainties that pose a significant risk resulting in material adjustment in the financial statements for the year ended 31 March 2022 is included below:

- Impairment test: Estimates used for impairment of property, plant and equipment of separate cash generating unit, key assumptions underlying recoverable amounts:
- Useful life of property, plant & equipment
- Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources
- Estimation of defined benefit obligation
- Estimation of current tax and deferred tax expense
- Estimation of Expected credit loss on trade receivables

### v. Property, plant and equipment:

#### Recognition and measurement

Items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of assets comprises of purchase price and directly attributable cost of bringing the assets to working condition for its intended use including borrowing cost and incidental expenditure during construction incurred up to the date when the assets are ready to use. Capital work in progress includes cost of assets at sites, construction expenditure and interest on the funds deployed.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as a separate item (major components) of property, plant and equipment.

Any gain on disposal of property, plant and equipment is recognised in Profit and loss account.

On transition to the Ind AS, the Company has opted to continue with the carrying value of all its property, plant and equipment recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

#### Subsequent Measurement

Subsequent expenditure is capitalised only if it is probable that future economic benefits associated with the expenditure will flow to the Company.

#### Depreciation

Depreciation on fixed assets is calculated on Straight Line Method (SLM) using the rates arrived at based on the estimated useful lives given in Schedule II of the Companies Act, 2013 and as per technical assessment by the company. Useful life of the assets required to be transferred under Concession Agreement have been restricted up to the end of Concession Agreement.

Cost of leasehold land is amortized over the lease period.

Depreciation methods, useful lives and residual values are reviewed at each financial year end and changes, if any, are accounted for prospectively.

### vi. Intangible assets

Intangible Assets are stated at cost less accumulated amortization and impairment loss, if any. Intangible assets are amortized on straight line method basis over the estimated useful life. Estimated useful life of the Software/Licenses is considered as 3 years.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

## Notes to the Standalone Financial Statements for the year ended 31 March 2022

### vii. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign exchange forward contracts, cross currency interest rate swaps, interest rate swaps, currency options and embedded derivatives in the host contract.

#### (A) Financial Assets

##### (a) Initial recognition and measurement

All financial assets are recognized initially at fair value (plus transaction costs attributable to the acquisition of the financial assets, in the case of financial assets are not recorded at fair value through profit or loss).

##### (b) Subsequent measurement and Classifications

The Company classifies its financial assets as subsequently measured at either amortized cost or fair value depending on the Company's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

##### Business model assessment

The Company assesses the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management.

##### Assessment whether contractual cash flows are solely payments of principal and interest

For the purposes of this assessment, 'Principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a period, for other basic lending risks, costs (e.g. liquidity risk and administrative costs), and profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

##### (i) Financial Assets at amortised cost

A financial asset is measured at amortised cost only if both of the following conditions are met:

- It is held within a business model whose objective is to hold assets to collect contractual cash flows.
- the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest.

After initial measurement, such financial assets are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss.

##### (ii) Financial Assets at Fair Value through Other Comprehensive Income (FVOCI)

A financial asset is measured at amortized cost only if both of the following conditions are met:

- it is held within a business model whose objective is to hold assets in order to collect contractual cash flows.
- the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest.

On initial recognition, the Company makes an irrevocable election on an instrument-by-instrument basis to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments, other than equity investment which are held for trading. Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

## Notes to the Standalone Financial Statements for the year ended 31 March 2022

### (iii) Financial Assets at Fair Value through Profit and Loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless on initial recognition the Company irrevocably elects to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Other financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognised in statement of the profit and loss.

### (iv) Investment in Subsidiaries, Jointly Controlled Entities and Associates

Investment in subsidiaries, jointly controlled entities and associates are measured at cost less impairment as per the Ind AS 27 -Separate Financial Statements.

#### **Impairment of investments:**

The Company reviews its carrying value of investments carried at cost or amortised cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

### (c) Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in the OCI is recognised in profit or loss.

### (d) Impairment of financial assets

The Company assesses the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments on a forward-looking basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

With regard to trade receivable, the Company applies the simplified approach as permitted by the Ind AS 109, Financial Instruments, which requires expected lifetime losses to be recognised from the initial recognition of the trade receivables.

For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial assets has increased significantly since initial recognition.

## Notes to the Standalone Financial Statements for the year ended 31 March 2022

### (B) Financial liabilities

#### (a) Initial recognition and measurement

Financial liabilities are classified at initial recognition as financial liabilities at fair value through profit or loss or amortised cost, as appropriate.

All financial liabilities are recognised initially at fair value and in the case of amortised cost, net of directly attributable transaction costs.

#### (b) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

##### (i) Financial Liabilities measured at amortised cost

After the initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

##### (ii) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in the Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to the P&L. However, the Company may transfer the cumulative gain or loss within equity. All the other changes in fair value of such liability are recognised in the statement of profit or loss.

#### (c) Derecognition of financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

### (C) Modifications of financial assets and financial liabilities

#### Financial assets

If the terms of a financial asset are modified, the Company evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised, and a new financial asset is recognised at fair value.

If the cash flows of the modified asset carried at amortised cost are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Company recalculates the gross carrying amount of the financial asset and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in profit or loss. If such a modification is carried out because of financial difficulties of the borrower, then the gain or loss is presented together with impairment losses. In other cases, it is presented as interest income.

#### Financial liabilities

The Company derecognises a financial liability when its terms are modified, and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

### viii. Inventories

Raw material, stores and spares are valued at lower of cost or net realizable value. Cost of raw material is determined on the first-in, first-out principle for respective agreements of LNG.

## Notes to the Standalone Financial Statements for the year ended 31 March 2022

**Cost of stores and spares is determined on weighted average cost.**

### ix. Revenue Recognition

The Company earns revenue primarily from providing regassification services and sale of RLNG.

#### (a) Sale of goods & services

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services. Revenue is recognised on output basis measured by units of gas dispatched, units of gas processed etc.

- Revenue from the sale of RLNG is recognised at the time when control is transferred to the customer at the point of dispatch.
- Revenue from the sale of regassification services is recognised at the time when the control of RLNG is transferred to the customers at the point of dispatch.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, credits, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

The billing schedules agreed with customers include periodic performance-based payments and / or milestone-based progress payments. Invoices are payable within contractually agreed credit period.

The Company disaggregates revenue from contracts with customers by the nature of goods and services.

#### (b) Interest Income

Interest income is recognized using the Effective Interest Rate ('EIR') method. The EIR is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial instrument or a shorter period, where appropriate to the net carrying amount of the financial asset. The EIR is computed basis the expected cash flows by considering all the contractual terms of the financial instrument. The calculation includes all fees, transaction costs, and all other premiums or discounts paid or received between parties to the contract that are an integral part of the effective interest rate.

#### (c) Dividend Income

Dividend income is recognised, when the right to receive the dividend is established.

### x. Foreign currency transactions

- (a) Foreign currency transactions are recorded at the exchange rate prevailing on the date of the transaction.
- (b) Monetary items denominated in foreign currencies (such as cash, receivables, payables etc.) outstanding at the year end, are translated at exchange rates applicable on year end date.
- (c) Non-monetary items denominated in foreign currency (such as fixed assets) are valued at the exchange rate prevailing on the date of transaction and carried at cost.
- (d) Any gains or losses arising due to exchange differences arising on translation or settlement are accounted for in the Statement of Profit and Loss.

### xi. Employee benefits

#### a. Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

#### b. Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided. The Company has following defined contribution plans:

## Notes to the Standalone Financial Statements for the year ended 31 March 2022

- a) **Provident Fund**
- b) **Superannuation Fund**
- c) **Defined benefit plans**

The Company has five defined benefit plans i.e., gratuity, post-retirement medical benefit, benevolent fund, long service award and resettlement allowance on retirement. The Company net obligation in respect of defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, a consideration is given to any applicable minimum funding requirements.

Remeasurement of the net defined benefit liabilities, which comprises of actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in Other Comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after considering any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

- d) **Other long-term employee benefits**

The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Re-measurements are recognised in profit or loss in the period in which they arise.

The Company has following long term employment benefit plans:

### Leave encashment

Leave encashment is payable to eligible employees at the time of retirement. The liability for leave encashment is provided based on actuarial valuation as at the Balance Sheet date, based on Projected Unit Credit Method, carried out by an independent actuary.

### xii. Borrowing Cost

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period that is required to complete and prepare the asset for its intended use. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

### xiii. Income tax

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to the items recognised directly in equity or in Other Comprehensive Income

- a) **Current tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

Current tax assets and liabilities are offset only if, the Company:

- a) **Has a legally enforceable right to set off the recognised amounts; and**
- b) **Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.**

## Notes to the Standalone Financial Statements for the year ended 31 March 2022

### b. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit nor loss.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improve.

Unrecognized deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a) The entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

### xiv. Impairment of non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication on impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash generating units (CGU).

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment loss in respect of assets other than goodwill is reversed only to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

### xv. Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

### xvi. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The board of directors of Petronet LNG Limited has been identified as being the chief operating decision maker by the Management of the Company. Refer note no 42 for segment information presented.

## Notes to the Standalone Financial Statements for the year ended 31 March 2022

### xvii. Cash and cash equivalents

Cash and cash equivalents comprise of cash at bank and in hand and short-term money market deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

### xviii. Lease Accounting

The Company measures the lease liability at present value of remaining lease payments discounted using the weighted average incremental borrowing rate as at the date of initial application and Right of Use asset is measured at an amount equal to lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the balance sheet immediately before the date of initial application.

#### **The Company as a lessee**

The Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period in exchange for consideration'. To apply this definition, the Company assesses whether the contract meets three key points of evaluation which are whether:

- the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Company
- the Company has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract
- the Company has the right to direct the use of the identified asset throughout the period of use. The Company assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

#### **Measurement and recognition**

At lease commencement date, the Company recognises a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term.

#### **The Company as a lessor**

At the inception of the lease the Group classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

- i) In view of expected increase in capacity utilization at Kochi terminal, the customers of the Company had been asking for lower regasification tariff for Kochi Terminal w.e.f. 1<sup>st</sup> April 2019. The Company was in discussion with its customers for volumes tied up with respect to the said terminal. The customers of the Company have now committed additional volumes w.r.t. Kochi terminal and accordingly the tariff has been revised w.e.f. 1<sup>st</sup> April 2019. As a result, during the year ended 31<sup>st</sup> March 2022, the Company has given Credit Note of Rs. 12,612 lac w.r.t. revenue booked from 1<sup>st</sup> April, 2019 till 31<sup>st</sup> March 2021 by adjusting revenues for the current year
- ii) Pursuant to the relevant provision under long term regasification contracts entered by the Company, income towards "Use or Pay charges" of Rs. 41,591 Lac in FY 2021-22 for Calendar year (CY) 2021 has been recognised on account of lower capacity utilisation by its customers. The balance confirmation/payment against the same is yet to be received. The management is confident that the payment would be recovered in due course.

### B. Contingent Liabilities

In the ordinary course of business, the Company faces claims and assertions by various parties. The Company assesses such claims and assertions and monitors the legal environment on an ongoing basis with the assistance of internal legal team. The Company records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its financial statements, if material. For potential losses that are considered possible, but not probable, the Company provides disclosure in the financial statements but does not record a liability in its accounts unless the loss becomes probable.

The following is a description of claims and assertions where a potential loss is possible, but not probable. The Company believes that none of the contingencies described below would have a material adverse effect on the Company's financial condition, results of operations or cash flows."

- a. The Collector of Electricity Duty, Gandhinagar (Gujarat) had issued notices classifying the business activities of the Company as "Storage (HTP-IIA)" instead of "Industrial Undertaking (HTP I)" and hence levied Electricity Duty @ 45% (revised rates @20%) instead of 20% (Revised rate @15%) of the consumption charges. The Company has challenged the legality and validity of the notices by way of writ petitions before the Hon'ble High Court of Gujarat who had quashed the supplementary bill/demand notice and remanded the case back to the Collector of Electricity Duty vide order dated 1 July 2014. The Company has made its submissions before the Collector of Electricity Duty, Gandhinagar and same has been resubmitted during the year in fresh hearing. The order is awaited. The total demand till 31 March, 2022 is Rs. 8,099 lac (Rs. 7,357 lac as on 31 March 2021).
- b. The Collector of Stamps, Bharuch had issued notice to the Company to pay stamp duty @ Re.1 per Rs.1000/ or part thereof of the value mentioned in the Delivery Order of the goods imported through ports in Gujarat pursuant to the amendment to Section 24 of the Bombay Stamp Act, 1958. The Hon'ble High Court of Gujarat has quashed the notice. Stamp authorities have filed Special Leave Petition (SLP) in Hon'ble Supreme Court against the same and the case is pending as on date. The potential liability from the effective date of amendment i.e. 1 April 2006 till 31 March 2022 on the CIF value would be Rs. 32,719 lac (Rs. 29,514 lac as on 31 March 2021).
- c. The Company has received refund of Rs.112 lac, Rs.284 lac and Rs.346 lac from Customs department vide CESTAT order dated 7 November 2013, 9 September 2011 and 31 May 2010 respectively mainly pertaining to custom duty on short landing of LNG. The Custom Authorities have filed appeal against the order of the CESTAT with the Hon'ble High court of Gujarat and the outcome of the case is pending as on 31 March 2022.
- d. Company has paid custom duty of Rs.959 lac (in relation to short landing of LNG under spot purchase agreement) against the demand order by the tax department. The Company has received favourable order in respect of the above issue from Commissioner (Appeals) and CESTAT. However, the refund of the custom duty has been denied by department and Commissioner (Appeals) on the ground of time barred refund application. The Company has preferred an appeal against the above order with CESTAT and received a negative order. Company filed a WRIT Petition with Hon'ble Gujarat High Court against the CESTAT order, and got favourable ruling. The Company has got refund of the above amount (Rs 959 lac) in June 2020. The department has preferred an appeal with Hon'ble Supreme Court against the order of Hon'ble High court of Gujarat, the outcome of which is pending as on 31 March 2022.
- e. The Company had received demand for service tax on vessel hire charges for the period 16 May 2008 to 30 September 2009 amounting to Rs.4,005 lac (including Interest). The Company had paid the demand under protest and preferred an appeal before CESTAT against the above demand and received favourable order on 24 October 2013. The Company had received the refund (including interest), however the department had preferred an appeal against the CESTAT order before the Hon'ble Supreme Court, the outcome of which is pending as on 31 March 2022.
- f. The Principal Commissioner of service tax has issued order against the Company regarding service tax demand on boil off quantity of LNG during regasification process against which Company has received favourable order from CESTAT. The refund of Rs 689 lac (for the period July 2014 till March 2015) is pending as on 31 March 2022 (Rs 5295 lac as on 31 March 2021).
- g. Kochi terminal of the Company is having Co-developer status in Puthuvypeen SEZ (PSEZ). As a Co-developer, it is entitled for the tax and duty benefits on the materials/ services received for authorized operation of its Kochi terminal. After exit of only unit ( viz GAIL) from this SEZ , PSEZ officials have denied endorsement of certain service invoices on which tax benefits were availed. Total amount of tax benefits availed on such invoices is Rs. 4,776 lac during the period from April 2019 to February 2020. In case invoices are not endorsed, refund of GST/ input credit may be denied to the vendors which may be claimed by some of the vendors from the Company.

## Notes to the Standalone Financial Statements for the year ended 31 March 2022

### C. Actuarial Assumptions & Plan Assets

#### a) Plan Assets and Actuarial Assumptions - Gratuity

##### 1) Plan assets-Gratuity

Particulars	31 March 2022	31 March 2021
Funds Managed by Insurer ( investment with insurer)	100%	100%

On an annual basis, an asset-liability matching study is done by the Company whereby the Company contributes the net increase in the actuarial liability to the plan manager in order to manage the liability risk.

##### 2) Actuarial assumptions-Gratuity

###### i) Economic assumptions

The principal assumptions are the discount rate and salary growth rate. The discount rate is based upon the market yields available on government bonds at the accounting date with a term that matches that of liabilities. Salary increase rate takes into account of inflation, seniority, promotion and other relevant factors on long term basis. Valuation assumptions are per following details:

Particulars	31 March 2022	31 March 2021
i) Discount rate	7.18%	6.98%
ii) Expected rate of future salary increase	7.50%	7.00%

###### ii) Demographic assumptions

Particulars	31 March 2022	31 March 2021
i) Retirement age (years)	60	60
ii) Mortality rates (inclusive of provision for disability)	100% of IALM (2012-14)	
iii) Ages		<b>Withdrawal rate</b>
Upto 30 years	3.00%	3.00%
From 31 to 44 years	2.00%	2.00%
Above 44 years	1.00%	1.00%

## Notes to the Standalone Financial Statements for the year ended 31 March 2022

(All amounts are in Rupees lac, unless otherwise stated)

### iii) Maturity Profile

Year	Rs in lac
Within 1 Year	45
1-2 Year	80
2-3 Year	76
3-4 Year	52
4-5 Year	91
5-6 Year	79
More than 6 Year	2,119

The company expects to contribute Rs.257 lacs to gratuity fund during next financial year

### iv) Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

Particulars	31 March 2022		31 March 2021	
	Increase	Decrease	Increase	Decrease
i) Discount rate (0.5% movement)	(163)	178	(135)	145
ii) Expected rate of future salary increase (0.5% movement)	176	(163)	145	135

Sensitivities due to mortality and withdrawals are not material and hence impact of change not calculated.

Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement and life expectancy are not applicable being a lump sum benefit on retirement.

### b) Actuarial assumptions -PRMS

#### i) Economic assumptions

The principal assumptions are the discount rate & cost growth rate. The discount rate is based upon the market yields available on Government bonds at the accounting date relevant to currency of benefit payments for a term that matches that of the liabilities. Medical cost increase rate is company's long term best estimate as to cost increases taking into account of inflation, other relevant factors on long term basis as provided in relevant accounting standard. These valuation assumptions are as per following details:

Particulars	31 March 2022	31 March 2021

### B. Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are:

- (a) recognised and measured at fair value and
- (b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

**Level 1:** Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

**Level 2:** The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

There are no transfers between level 1 and level 2 during the year

### Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments

## Notes to the Standalone Financial Statements for the year ended 31 March 2022

(All amounts are in Rupees lac, unless otherwise stated)

- the fair value of forward foreign exchange contracts is determined using forward exchange rates at the balance sheet date
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities and preference shares, where the fair values have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk.

### Fair value measurements using significant unobservable inputs (level 3)

<b>Closing balance</b>	<b>0.13</b>	<b>0.13</b>

### Valuation process

The amount invested and fair value of unquoted equity shares as on 31 march 2022 is Rs 0.13 (Rs 0.13 as on 31 March 2021) The fair value is determined using level 3 input i.e. discounted cash flows.

### C. Fair value of financial assets and liabilities measured at amortised cost

<b>Total financial liabilities</b>	<b>5,18,120</b>	<b>5,18,120</b>	<b>4,77,628</b>	<b>4,77,628</b>

The carrying amounts of trade receivables, trade payables, capital creditors, cash and cash equivalents, current maturities of long term debt, unpaid dividend, and other payable for capital goods are considered to be the same as their fair values, due to their short-term nature.

The fair values for loans were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

### II. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- credit risk;
- liquidity risk; and
- market risk

#### Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the board of directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

#### i. Credit risk

The Company has made investments in Debt based Mutual Funds. These Mutual funds invests in NCD / Bonds / CP / CD of various companies and banks. In case, the investee company defaults on repayment, such losses may have to be borne by the investors of Mutual funds.

Company generally takes Stand by Letter of Credit (SBLC) from its customers, the exceptions being its Promoters namely BPCL, GAIL, IOCL and ONGC. Option to take SBLC from Promoter is also being explored by the Company.

The Company establishes an allowance for impairment that represents its estimate of expected credit losses in respect of trade and other receivables. Basis the evaluation, the management has determined that there are credit impairment loss on the trade and other receivables.

The gross carrying amount of trade receivables is Rs. 2,68,444 lac (31 March 2021 – Rs. 1,87,474 lac).

During the period, provision amounting to Rs 3035 lac for doubtful debts as on 31 March 2022, has been netted off against trade receivables. The Company management also pursue all options for recovery of dues wherever necessary based on its internal assessment. A default on a financial asset is generally when counterparty fails to make payments within 365 days when they fall due.

#### Reconciliation of loss allowance provision – Trade receivables.

	<b>31 March 2022</b>	<b>31 March 2021</b>
Opening balance	21	178
Changes in loss allowance calculated at life time expected credit losses	3,014	(157)
<b>Closing balance</b>	<b>3,035</b>	<b>21</b>

#### ii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

## Notes to the Standalone Financial Statements for the year ended 31 March 2022

(All amounts are in Rupees lac, unless otherwise stated)

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at local level in accordance with practice and limits set by the Company. These limits vary by location to take into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies, considering the level of liquid assets necessary, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

### iii. Market risk

Market risk is the risk that changes in market prices – such as commodity prices (LNG), foreign exchange rates and interest rates – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

#### a) Price risk

To protect the company from fluctuation of commodity prices, same are passed through to the off-takers in long term contract. In spot or short term contract, they are generally pass through to the customers except in few cases, up to 2 cargo load, where the company keeps the commodity price risk with themselves to take benefit from market fluctuation.

#### b) Currency risk

PLL imports LNG mainly from Qatar and Australia through long term chartered vessels. The foreign exchange involved in making payment to LNG suppliers, loading port charges and shipper is recovered from off-takers / customers under sale contract, both long term and short term. Company does not take any exposure on account of currency in Foreign Currency Loans by parallelly taking derivatives to hedge against the the foreign exchange fluctuation on loan, if any. In respect of other payments on account of repair and capex of plant, operating expenses of plant and corporate offices etc. same are monitored on a regular basis to keep the open position at an acceptable level.

### Sensitivity analysis

A reasonably possible strengthening (weakening) of the INR against all other currencies at 31 March would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables (in particular interest rates) remains constant.

Impact of 10% movement in foreign exchange conversion rate

	Profit or loss, net of tax		Equity, net of tax	
	Strengthening	Weakening	Strengthening	Weakening
<b>31 March 2022</b>				
USD	33,992	(33,992)	33,992	(33,992)
EUR	113	(113)	113	(113)
GBP	2	(2)	2	(2)
<b>31 March 2021</b>				
USD	31,322	(31,322)	31,322	(31,322)
EUR	15	(15)	15	(15)

### c) Interest rate risk

The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company cash flow to interest rate risk. Company policy is to maintain most of its borrowings at fixed rate using interest rate swaps to achieve this when necessary especially if the borrowing is made in foreign currency. Company has some amount of loan taken from International Finance Corporation, which is at variable rate. The Company ensures that such amount is kept at an acceptable level. The investment of surplus funds made by company in debt based of mutual funds is also subject to this risk. Company makes investment in a manner which minimises such risk and also takes regular feedback from the market experts on such investments. The Company has also given loans to India LNG Transport Company (No. 3) Limited, Malta which is at Bank Rate and any change in Bank Rate will impact the earnings.

#### Exposure to interest rate risk

The interest rate profile of the Group's interest-bearing financial instruments as reported to the management of the Group is as follows.

	Nominal Amount	
	31 March 2022	31 March 2021
<b>Variable-rate instruments</b>		
Financial assets		
- Loan	2,145	2,122
Financial liabilities		
- Variable rate borrowing	2,300	6,440
	<b>4,445</b>	<b>8,562</b>

	31 March 2022		
	Average interest rate	Balance	% of total loans
Financial Asset : Loan	4.25%	2,145	100%
Financial Liability: IFC "A loan"	5.42%	2,300	100%

## Notes to the Standalone Financial Statements for the year ended 31 March 2022

(All amounts are in Rupees lac, unless otherwise stated)

	31 March 2022		
	Average interest rate	Balance	% of total loans
Financial Asset : Loan	4.39%	2,122	100%
Financial Liability: IFC "A loan"	5.40%	6,440	100%

### Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss, and the Company does not designate derivatives (interest rate swaps) as hedging instruments under a fair value hedge accounting model. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

### Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

	Profit or loss, net of tax		Equity, net of tax	
	100 bp increase	100 bp decrease	100 bp increase	100 bp decrease
<b>31 March 2022</b>				
Variable-rate instruments	(1)	1	(1)	1
<b>Cash flow sensitivity (net)</b>	<b>(1)</b>	<b>1</b>	<b>(1)</b>	<b>1</b>
<b>31 March 2021</b>				
Variable-rate instruments	(32)	32	(32)	32
<b>Cash flow sensitivity (net)</b>	<b>(32)</b>	<b>32</b>	<b>(32)</b>	<b>32</b>

A change of 100 basis points in interest rates would have increased or decreased equity by Rs. 1 lac after tax (Previous year Rs. 32 lac). This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

### 58 Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital on a yearly basis as well as the level of dividends to ordinary shareholders which is given based on approved dividend policy.

The board of directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.

## INDEPENDENT AUDITOR'S REPORT

**To the Members of Petronet LNG Limited**

**Report on the Audit of the Consolidated Financial Statements**

### **Opinion**

We have audited the accompanying Consolidated Financial Statements of Petronet LNG Limited ("the Parent Company") and its subsidiary (the Parent and its subsidiary together referred to as the "Group) and its Joint Venture, which comprise of the Consolidated Balance Sheet as at March 31, 2022 and the Consolidated Statement of Profit and Loss (including other comprehensive income), Consolidated Statement of Change in Equity and the Consolidated Statement of Cash Flows for the year then ended and notes to the Consolidated Financial Statements, including a summary of significant accounting policies and other explanatory information prepared based on the relevant records (hereinafter referred to as the "Consolidated Financial Statement").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the group as at March 31, 2022, of consolidated total comprehensive income (comprising of loss and other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended.

### **Basis for opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group and its joint ventures in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained and the evidence obtained by the other auditors in term of their reports is sufficient and appropriate to provide a basis for our opinion.

### **Emphasis of Matters**

We draw your attention to note 15(ii) to the consolidated financial statement regarding that pursuant to the relevant provision under long term regasification contracts entered into, the Company has booked income towards "Use or Pay charges" of Rs. 41,591 Lacs in the financial year 2021-22 for Calendar year (CY) 2021 on account of lower capacity utilization by its customers. The balance confirmation/payment against the same is yet to be received. The management is confident that the payment would be recovered in due course.

Our opinion is not modified in respect of this matter.

### **Key audit matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

S. No.	Description of Key Audit Matter	Audit Procedures Undertaken to address the Key Audit Matter & conclusions thereon
1.	<b>Impairment testing of Kochi Plant</b> The recoverable value of the Property Plant and Equipment's capitalized under Kochi Plant of the Company are dependent on future demand from Kochi Plant. The determination of recoverable amount of Kochi Plant is based on the value-in use derived from future free net cash flow based on management assumptions of operations for the coming years and from the terminal period. Significant judgement is required by the Management in determining value-in-use, including discount rate to be applied and cash flow projections based on availability of pipeline, demand of gas etc. Accordingly, the impairment evaluation of Kochi Plant is considered to be a key audit matter.	We assessed the Company's process of assessing the impairment requirement for Kochi Plant by reviewing the Impairment Study Report, carried out by an outside consultant appointed by the Company, and for verification of the same, following tests were performed: <ul style="list-style-type: none"> <li>Considered if the discounted cash flow models used to estimate the recoverable amount of Kochi Plant, based on "Value in Use" (VIU) were in consistent with Indian Accounting Standard.</li> <li>Considered whether the forecasted cash flows in the impairment model were reasonable and based upon supportable assumptions</li> <li>Performed tests of the mathematical accuracy of the impairment model calculations.</li> </ul> We found management's assessment that there is no immediate case of impairment of Kochi Plant based on VIU is reasonable.

2	<p>Accuracy of recognition, measurement, presentation and disclosures of revenues and other related balances in view of requirement of Ind AS 115 "Revenue from Contracts with Customers".</p> <p>The application of Ind AS 115 requires certain key judgements including identification of distinct performance obligations and transaction price.</p>	<p>We assessed the Company's process of identification of distinct performance obligations and transaction price and for the same we selected sample contracts, covering all type of revenue recognized by the Company and performed the following procedures:</p> <ul style="list-style-type: none"> <li>Considered the terms of the contracts to determine the transaction price specially to ascertain if there is any financing component in the arrangement where advances have been received from the customers.</li> <li>Read, analysed and identified the distinct performance obligations in these contracts.</li> <li>Compared these performance obligations with that identified and recorded by the Company.</li> <li>Performed analytical procedures for reasonableness of revenues disclosed by type and service offerings.</li> </ul> <p>Based on the work performed, we found the management's assessment of determination of transaction price and identification of distinct performance obligation is reasonable.</p>
3	<p><b>Determination of credit impairment on trade receivables</b></p> <p>Trade Receivables are significant to the Company's financial statements. The Collectability of trade receivables is a key element of the company's working capital management. Due to complexity of contractual terms, as well as ongoing negotiations with customers, significant judgements are required to estimate whether any impairment provision is required against such receivable and accordingly, it was determined to be a key audit matter in our audit.</p>	<p><b>Our audit procedures in this area included the following:</b></p> <ul style="list-style-type: none"> <li>Assessed the design, implementation and operating effectiveness of internal controls over Management's evaluation of the Expected Credit Loss on trade receivables including historical credit loss.</li> <li>Reviewed contractual terms subject to which revenue recognised and trade receivables outstanding in the books.</li> <li>Reviewed documents related to ongoing negotiation with the customers.</li> <li>Discussion with management over recoverability of outstanding dues</li> <li>Reviewing the adequacy and completeness of the disclosures in financial statement.</li> </ul>
4	<p><b>Contingent liabilities;</b> There are various pending cases against which demand has been raised by different authority.</p>	<p>For legal and regulatory matters, our procedures included following:</p> <ul style="list-style-type: none"> <li>Assessing the processes and control over legal matters;</li> <li>Reviewing the Group's significant legal matters and other contractual claims;</li> <li>Performing substantive procedures on the underlying calculations of potential liability;</li> <li>Where relevant, reading external legal opinions obtained by management;</li> <li>Where relevant, obtaining written confirmation from external legal counsels on the status of the cases</li> <li>Reviewing the adequacy and completeness of the company's disclosures.</li> </ul> <p>Based on the work performed, we found the disclosures made by the management in financial statements are sufficient.</p>

#### Other Information

The Parent Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Company's annual report (mainly Director's Report, Corporate Governance Report, Business Responsibility Report and Management Discussion and Analysis of annual report) but does not include the Consolidated financial statements and our auditor's report thereon. The other information in annual report is expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we have obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the information included in Annual Report, if we conclude that there is material misstatement therein, we are required to communicate the matter to those charged with the governance and other appropriate action as may be required.

#### **Responsibilities of management and those charged with governance for the Consolidated Financial Statements**

The Parent Company's Board of Directors is responsible for the preparation and presentation of these Consolidated Financial Statements in terms of the requirement of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated cash flows and changes in equity of the group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of consolidated financial statements by the Directors of the Parent Company, as aforesaid.

In preparing the Consolidated financial statements, the respective Board of Directors of the Companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of companies included in the Group and joint venture are responsible for overseeing the financial reporting process of the Group and its joint ventures.

#### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to

issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its joint venture to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its joint venture to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated financial statements, including the disclosures, and whether the Consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statement. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statement of which we are the independent auditors. For the other entities included in the

consolidated financial statement, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audit carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Parent Company, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosures about the matters or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matters**

We did not audit the financial statement and other financial information of subsidiary (Petronet Energy Limited) included in the statement, whose financial statement reflects total assets of Rs. 7.27 crores as at 31st March 2022, total revenue of Rs. 0.26 crores, net loss after tax of Rs. 3.10 crores, total comprehensive loss of Rs. 3.10 crores and cash flow (net) of Rs. 6.73 crores for year ended 31st March 2022 respectively, as considered in the consolidated financial statement. These Ind AS financial statement and other financial information have been audited by other auditor, whose financial statements, other financial information and auditor's reports have been furnished to us by the management.

The Consolidated Financial Statement also includes the Group's share of net profit of Rs. 9,811 lacs (including Other Comprehensive Income), for the year ended 31st March 2022, as considered in the consolidated financial results, in respect of its joint venture namely Adani Petronet (Dahej) Port Pvt. Ltd. (APPPL) and India LNG Transport Co No (4) Pvt. Ltd. (ILT4), whose financial statements/financial information have been audited other auditors and whose reports have been furnished to us by the Management.

Our opinion on consolidated Ind AS financial statement, in so far as it relates to amounts and disclosures included in respect of these subsidiary and joint venture entity, and our report in terms of sub-sections (3) and (11) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary and jointly controlled entities, is based solely on the report of the other auditors.

Our opinion on the consolidated Ind AS financial statements, and our report on Other Legal and Regulatory Requirements

 Date: 11<sup>th</sup> May 2022

**"Annexure A" as referred to in paragraph 1(f) of our report of even date**

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the COMPANIES ACT, 2013 ("THE ACT") on the Audit of the Consolidated Financial Statements for the year ended 31st March 2022**

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as of and for the year ended 31 March 2022, we have audited the internal financial controls over financial reporting of Petronet LNG Limited ("the Parent Company") and subsidiary (the Parent and its subsidiary together referred to as the "Group) and its joint venture entity incorporated in India, as of that date.

**Management's Responsibility for Internal Financial Controls**

The respective Board of Directors of the companies included in group and its joint venture entity, which are incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to consolidated financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by ICAI and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial control system with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the Parent company's internal financial controls system with reference to consolidated financial statements.

**Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

- pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

**Inherent Limitations of Internal Financial Controls with reference to consolidated financial statements**

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, to the best of our information and according to explanations given to us, the Parent Company and its subsidiary and joint venture entity, which are incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at 31 March 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

### **Other Matters**

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements insofar as it relates to subsidiary and Joint venture company, which are a company incorporated in India, is based on the corresponding report of the auditor of such company incorporated in India.

Presently, the Company owns and operates LNG Regasification Terminal with name plate capacity of 17.5 MMTPA at Dahej, in the State of Gujarat and 5 MMTPA at Kochi, in the State of Kerala.

### 2. Significant Accounting Policies

The Company has consistently applied the following accounting policies to all periods presented in the financial statements.

#### i. Basis of preparation

These financial statements have been prepared in accordance with the recognition and measurement principles laid down in the Indian Accounting Standard ('Ind AS'), prescribed under Section 133 of the Companies Act, 2013 read with relevant rules issued thereunder; and by the Institute of Chartered Accountants of India, as applicable and other accounting principles generally accepted in India.

These financial statements were authorised for issue by the Board of Directors on 11th May'2022.

#### ii. Basis of measurement

The financial statements have been prepared on a historical cost basis except the following items, which are measured on alternative basis on each reporting date:

- Certain financial assets (including derivative instruments) that are measured at fair value
- Defined benefit liabilities/(assets): fair value of plan assets less present value of defined benefit obligation

#### iii. Basis of Consolidation

The consolidated financial statement of Petronet LNG Limited ('the Company') includes financial Statements of Petronet Energy Limited ("Wholly Owned Subsidiary Company"), Adani Petronet (Dahej) Port Pvt Ltd.("JV Company") and India LNG Transport Co (No 4) Ltd ('the JV Company'), in both the JVs Company owns 26% paid up share capital, collectively referred to as 'the Group'.

The consolidated financial statements have been prepared on the following basis:

#### Subsidiaries:

The financial statements of the Company and its subsidiary companies are combined on a line-by-line basis by adding together the book values of like items of assets, liabilities, income and expenses after eliminating intra-group balances and intra-group transactions resulting in unrealized profits or losses in accordance with Ind AS 110 - "Consolidated Financial Statement".

#### Joint ventures

Interests in joint ventures are accounted for using the equity method, after initially being recognised at cost in the consolidated balance sheet.

#### Equity accounting

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Company's share of the post-acquisition profits or losses and other comprehensive income. Pre-acquisition period dividends received or receivable from associates and joint ventures are recognised as a reduction in the carrying amount of the investment.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described in note xiii below.

In preparing these financial statements, management has made judgements, estimates and assumptions that affect the application of the Company's accounting policies and the reported amounts of assets, liabilities, income and expenses. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to estimates are recognised prospectively.

#### **a. Judgements**

Information about the judgements made in applying accounting policies that have the most significant effects on the amounts recognised in the financial statements have been given below:

- Leases: Whether an arrangement qualifies as a lease under Ind AS 116 and in assessment of the lease term and discount rate. Judgement is exercised for assessing the lease term in arrangements where the option to extend or to terminate the lease exist. While doing so, the facts and circumstances are considered to decide economic merits and certainty of exercising an option.
- Classification of financial assets: assessment of business model within which the assets are held and assessment of whether the contractual terms of the financial asset are solely payments of principal and interest on the principal amount outstanding.
- Identification of distinct performance obligation based on assessment of the products and services in the contract and based on certain factors, determining point of satisfaction of the obligation whether it is at a specific point or over a period.
- Transaction Price determination: Transaction price could be fixed or variable with indexed based escalations. Transaction price is not adjusted for the time value of money in the case where advances are received from customers to secure long term contracts.

#### **b. Assumptions and estimation uncertainties**

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment in the financial statements for the year ended 31 March 2022 is included below:

- Impairment test: Estimates used for impairment of property, plant and equipment of separate cash generating unit, key assumptions underlying recoverable amounts:
- Useful life of property, plant & equipment
- Recognition and measurement of provisions and contingencies: key assumptions about the likelihood and magnitude of an outflow of resources
- Estimation of defined benefit obligation
- Estimation of current tax and deferred tax expense
- Estimation of expected credit loss on trade receivables

### **vi. Property, plant and equipment:**

#### **Recognition and measurement**

Items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of assets comprises of purchase price and directly attributable cost of bringing the assets to working condition for its intended use including borrowing cost and incidental expenditure during construction incurred upto the date when the assets are ready to use. Capital work in progress includes cost of assets at sites, construction expenditure and interest on the funds deployed.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as a separate item (major components) of property, plant and equipment.

## Notes to the Consolidated Financial Statements for the year ended 31 March 2022

Any gain on disposal of property, plant and equipment is recognised in Profit and loss account.

On transition to the Ind AS, the Company has elected to continue with the carrying value of all its property, plant and equipment recognised as at 1 April 2015 measured as per the previous GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

### **Subsequent Measurement**

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

### **Depreciation**

Depreciation on fixed assets is calculated on Straight Line Method (SLM) using the rates arrived at based on the estimated useful lives given in Schedule II of the Companies Act, 2013 and as per technical assessment by the Company. Useful life of the assets required to be transferred under Concession Agreement have been restricted up to the end of Concession Agreement.

### **Cost of leasehold land is amortized over the lease period.**

Depreciation methods, useful lives and residual values are reviewed at each financial year end and changes, if any, are accounted for prospectively.

### **vii. Intangible assets**

Intangible Assets are stated at cost less accumulated amortization and impairment loss, if any. Intangible assets are amortized on straight line method basis over the estimated useful life. Estimated useful life of the Software/Licenses is considered as 3 years.

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

### **viii. Financial instruments**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign exchange forward contracts, cross currency interest rate swaps, interest rate swaps currency options and embedded derivatives in the host contract.

#### **(A) Financial Assets**

##### **(a) Initial recognition and measurement**

All financial assets are recognized initially at fair value (plus transaction costs attributable to the acquisition of the financial assets, in the case of financial assets are not recorded at fair value through profit or loss).

##### **(b) Subsequent measurement and Classifications**

The Company classifies its financial assets as subsequently measured at either amortised cost or fair value depending on the Company's business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

#### **Business model assessment**

The Company assesses the objective of a business model in which an asset is held at a portfolio level because this best reflects the way the business is managed, and information is provided to management.

#### **Assessment whether contractual cash flows are solely payments of principal and interest**

For the purposes of this assessment, 'principal' is defined as the fair value of the financial asset on initial recognition. 'Interest' is defined as consideration for the time value of money and for the credit risk associated with the principal amount outstanding during a period, for other basic lending risks, costs (e.g. liquidity risk and administrative costs), and profit margin.

In assessing whether the contractual cash flows are solely payments of principal and interest, the Company considers the contractual terms of the instrument. This includes assessing whether the financial asset contains a contractual term that could change the timing or amount of contractual cash flows such that it would not meet this condition.

## Notes to the Consolidated Financial Statements for the year ended 31 March 2022

### (i) Financial Assets at amortised cost

A financial asset is measured at amortised cost only if both of the following conditions are met:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows.
- the contractual terms of the financial asset represent contractual cash flows that are solely payments of principal and interest.

After initial measurement, such financial assets are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance income in the profit or loss. The losses arising from impairment are recognized in the profit or loss.

### (ii) Financial Assets at Fair Value through Other Comprehensive Income (FVOCI)

A financial asset is measured at amortized cost only if both of the following conditions are met:

- it is held within a business model whose objective is to hold assets in order to collect contractual cash flows.
- the contractual terms of the financial asset represents contractual cash flows that are solely payments of principal and interest.

On initial recognition, the Company makes an irrevocable election on an instrument-by-instrument basis to present the subsequent changes in fair value in other comprehensive income pertaining to investments in equity instruments, other than equity investments which are held for trading.

Subsequently, they are measured at fair value with gains and losses arising from changes in fair value recognized in other comprehensive income and accumulated in the 'Reserve for equity instruments through other comprehensive income'. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments.

### (iii) Financial Assets at Fair Value through Profit and Loss (FVTPL)

Investments in equity instruments are classified as at FVTPL, unless the Company irrevocably elects on initial recognition to present subsequent changes in fair value in other comprehensive income for investments in equity instruments which are not held for trading.

Other financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit or loss are immediately recognized in the statement of profit and loss.

### (iv) Investment in Subsidiaries, Jointly Controlled Entities and Associates

Investment in subsidiaries, jointly controlled entities and associates are measured at cost less impairment as per the Ind AS 27 -Separate Financial Statements.

#### **Impairment of investments:**

The Company reviews carrying value of investments carried at cost or amortised cost annually, or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for.

### (c) Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of the Company's continuing involvement. In that case,

## Notes to the Consolidated Financial Statements for the year ended 31 March 2022

the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognised) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognised in the OCI is recognised in profit or loss.

### (d) Impairment of financial assets

The Company assesses the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments on a forward-looking basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

With regard to trade receivable, the Company applies the simplified approach as permitted by the Ind AS 109, Financial Instruments, which requires expected lifetime losses to be recognized from the initial recognition of the trade receivables.

For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial assets has increased significantly since initial recognition.

### (B) Financial liabilities

#### (a) Initial recognition and measurement

Financial liabilities are classified at initial recognition as financial liabilities at fair value through profit or loss or amortised cost, as appropriate.

All financial liabilities are recognised initially at fair value and in the case of amortised cost, net of directly attributable transaction costs.

#### (b) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

##### (i) Financial Liabilities measured at amortised cost

After the initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

##### (ii) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term.

##### **Gains or losses on liabilities held for trading are recognised in the profit or loss.**

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in the Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in the OCI. These gains/ losses are not subsequently transferred to the statement of profit and loss. However, the group may transfer the cumulative gain or loss within equity. All the other changes in fair value of such liability are recognised in the statement of profit or loss.

#### (c) Derecognition of financial liabilities

The Company derecognises a financial liability when its contractual obligations are discharged or cancelled or expire.

## Notes to the Consolidated Financial Statements for the year ended 31 March 2022

### (C) Modifications of financial assets and financial liabilities

#### **Financial assets**

If the terms of a financial asset are modified, the Company evaluates whether the cash flows of the modified asset are substantially different. If the cash flows are substantially different, then the contractual rights to cash flows from the original financial asset are deemed to have expired. In this case, the original financial asset is derecognised, and a new financial asset is recognised at fair value.

If the cash flows of the modified asset carried at amortised cost are not substantially different, then the modification does not result in derecognition of the financial asset. In this case, the Company recalculates the gross carrying amount of the financial asset and recognises the amount arising from adjusting the gross carrying amount as a modification gain or loss in profit or loss. If such a modification is carried out because of financial difficulties of the borrower, then the gain or loss is presented together with impairment losses. In other cases, it is presented as interest income.

#### **Financial liabilities**

The Company derecognises a financial liability when its terms are modified, and the cash flows of the modified liability are substantially different. In this case, a new financial liability based on the modified terms is recognised at fair value. The difference between the carrying amount of the financial liability extinguished and the new financial liability with modified terms is recognised in profit or loss.

### ix. Inventories

Raw material, stores and spares are valued at lower of cost or net realizable value. Cost of raw material is determined on first-in, first-out principle for respective agreements of LNG.

Cost of stores and spares is determined on weighted average cost.

### x. Revenue Recognition

The Company earns revenue primarily from providing regassification services and sale of RLNG.

#### (a) Sale of goods & services

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the Company expects to receive in exchange for those products or services. Revenue is recognised on output basis measured by units of gas dispatched, units of gas processed etc.

- Revenue from the sale of RLNG is recognised at the point in time when control is transferred to the customer at the point of dispatch.
- Revenue from the sale of regassification services is recognised at a point in time when the control of RLNG is transferred to the customers at the point of dispatch.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, credits, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contract assets are recognised when there is excess of revenue earned over billings on contracts. Contract assets are classified as unbilled receivables (only act of invoicing is pending) when there is unconditional right to receive cash, and only passage of time is required, as per contractual terms.

The billing schedules agreed with customers include periodic performance-based payments and / or milestone-based progress payments. Invoices are payable within contractually agreed credit period.

The Company disaggregates revenue from contracts with customers by the nature of goods and services.

#### (b) Interest income

Interest income is recognized using the Effective Interest Rate ('EIR') method. The EIR is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial instrument or a shorter period, where appropriate to the net carrying amount of the financial asset. The EIR is computed basis the expected cash flows by considering all the contractual terms of the financial instrument. The calculation includes all fees, transaction costs, and all other premiums or discounts paid or received between parties to the contract that are an integral part of the effective interest rate.

## Notes to the Consolidated Financial Statements for the year ended 31 March 2022

### (c) Dividend income

Dividend income is recognised, when the right to receive the dividend is established.

### x. Foreign currency transactions

- (a) Foreign currency transactions are recorded at the exchange rate prevailing on the date of the transaction.
- (b) Monetary items denominated in foreign currencies (such as cash, receivables, payables etc.) outstanding at the year end, are translated at exchange rates applicable on year end date.
- (c) Non-monetary items denominated in foreign currency (such as fixed assets) are valued at the exchange rate prevailing on the date of transaction and carried at cost.
- (d) Any gains or losses arising due to exchange differences arising on translation or settlement are accounted for in the Statement of Profit and Loss.

### xii. Employee benefits

#### a) Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

#### b) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided. The Company has following defined contribution plans:

- a) Provident Fund
- b) Superannuation Fund

#### c) Defined benefit plans

The Company has five Defined benefit plan – Gratuity, post-retirement medical benefit, benevolent fund, long service award and resettlement allowance on retirement. The Company net obligation in respect of defined benefit plan is calculated by estimating the amount of future benefit that employees have earned in the current and prior periods, discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Company, the recognised asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, a consideration is given to any applicable minimum funding requirements.

Re-measurement of the net defined benefit liabilities, which comprises of actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in Other Comprehensive Income. Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset), to the net defined liability (asset) at the start of the financial year after considering any changes as a result of contribution and benefit payments during the year. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognised immediately in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

#### d) Other long-term employee benefits

The Company's net obligation in respect of long-term employee benefits is the amount of future benefit that the employees have earned in return for their service in the current and prior periods. That benefit is discounted to determine its present value. Re-measurements are recognised in profit or loss in the period in which they arise.

## Notes to the Consolidated Financial Statements for the year ended 31 March 2022

**The Company has following long term employment benefit plans:**

### Leave encashment

Leave encashment is payable to eligible employees at the time of retirement. The liability for leave encashment is provided based on actuarial valuation as at the Balance Sheet date, based on Projected Unit Credit Method, carried out by an independent actuary.

### xiii. Borrowing Cost

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

Other borrowing costs are expensed in the period in which they are incurred.

### xiv. Income tax

Income tax expense comprises current and deferred tax. It is recognised in profit or loss except to the extent that it relates to items recognised directly in equity or in Other Comprehensive Income'

#### a. Current tax

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of previous years. It is measured using tax rates enacted or substantively enacted at the reporting date.

**Current tax assets and liabilities are offset only if, the Company:**

- a) Has a legally enforceable right to set off the recognised amounts; and
- b) Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

#### b. Deferred tax

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit nor loss.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

**Deferred tax assets and liabilities are offset only if:**

- a) The entity has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) The deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity.

### xv. Interest in Joint Ventures

Interests in joint ventures accounted for using the equity method are recognised at cost.

## **Notes to the Consolidated Financial Statements for the year ended 31 March 2022**

### **xvi. Impairment of non-financial assets**

At each reporting date, the Company reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication on impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or cash generating units (CGU).

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU. An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its recoverable amount.

Impairment loss in respect of assets other than goodwill is reversed only to the extent that the assets carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

### **xvii. Provisions**

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

### **xviii. Segment Reporting**

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The board of directors of Petronet LNG Limited has been identified as being the chief operating decision maker by the Management of the Company. Refer note 42 for segment information presented.

### **xix. Cash and cash equivalents**

Cash and cash equivalents comprises of cash at bank and in hand and short-term money market deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

### **xx. Lease Accounting**

The Company measures the lease liability at present value of remaining lease payments discounted using the weighted average incremental borrowing rate as at the date of initial application and Right of Use asset is measured at an amount equal to lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognized in the balance sheet immediately before the date of initial application.

#### **The Company as a lessee**

The Company considers whether a contract is or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period in exchange for consideration'. To apply this definition, the Company assesses whether the contract meets three key evaluations which are whether:

the contract contains an identified asset, which is either explicitly identified in the contract or implicitly specified by being identified at the time the asset is made available to the Company

the Company has the right to obtain substantially all of the economic benefits from use of the identified asset throughout the period of use, considering its rights within the defined scope of the contract

## Notes to the Consolidated Financial Statements for the year ended 31 March 2022

the Company has the right to direct the use of the identified asset throughout the period of use. The Company assess whether it has the right to direct 'how and for what purpose' the asset is used throughout the period of use.

### Measurement and recognition

At lease commencement date, the Company recognises a right-of-use asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist.

At the commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or the Company's incremental borrowing rate.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is re-measured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments.

When the lease liability is re-measured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero.

The Company has elected to account for short-term leases and leases of low-value assets using the practical expedients. Instead of recognising a right-of-use asset and lease liability, the payments in relation to these are recognised as an expense in profit or loss on a straight-line basis over the lease term.

### The Company as a lessor

At the inception of the lease the Group classifies each of its leases as either an operating lease or a finance lease. The Company recognises lease payments received under operating leases as income on a straight-line basis over the lease term. In case of a finance lease, finance income is recognised over the lease term based on a pattern reflecting a constant periodic rate of return on the lessor's net investment in the lease. When the Company is an intermediate lessor it accounts for its interests in the head lease and the sub-lease separately. It assesses the lease classification of a sub-lease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sub-lease as an operating lease.

- i) In view of expected increase in capacity utilization at Kochi terminal, the customers of the Company had been asking for lower regasification tariff for Kochi Terminal w.e.f. 1<sup>st</sup> April 2019. The Company was in discussion with its customers for volumes tied up with respect to the said terminal. The customers of the Company have now committed additional volumes w.r.t. Kochi terminal and accordingly the tariff has been revised w.e.f. 1<sup>st</sup> April 2019. As a result, during the year ended 31<sup>st</sup> March 2022, the Company has given Credit Note of Rs. 12,612 lac w.r.t. revenue booked from 1<sup>st</sup> April, 2019 till 31<sup>st</sup> March 2021 by adjusting revenues for the current year.
- ii) Pursuant to the relevant provision under long term regasification contracts entered by the Company, income towards "Use or Pay charges" of Rs. 41,591 Lac in FY 2021-22 for Calendar year (CY) 2021 has been recognised on account of lower capacity utilisation by its customers. The balance confirmation/payment against the same is yet to be received. The management is confident that the payment would be recovered in due course.

### 41 Contingent liabilities, contingent assets and commitments

#### A. Commitments

- a. Estimated amount of contracts remaining to be executed on capital account (net of advances) and not provided for Rs 1,25,917 lac (as on 31<sup>st</sup> March 2021 Rs. 11,630 lac).
- b. The Company has entered into following long term LNG purchase agreements:
  - a. 7.5 MMTPA with Ras Laffan Liquified Natural Gas Company Limited (2), Qatar for a period upto April 2028.
  - b. 1.44 MMTPA with Mobil Australia Resources Company PTY Ltd, Australia for a period upto 2035.

Since the Company has entered into materially back to back sale agreements against the above purchase agreements, there is no foreseeable loss on these agreements as on the balance sheet date. The Company has issued Standby Letter of Credit of Rs. 3,90,884 lac (Rs. 3,10,898 lac as on 31<sup>st</sup> March 2021) to Ras Laffan Liquified Natural Gas Company Limited (2) and Rs.55,518 lac (Rs 80,954 lac as on 31<sup>st</sup> March 2021) to Mobil Australia Resource Company PTY Ltd against the Long Term Purchase Agreements.

#### B. Contingent Liabilities

In the ordinary course of business, the Company faces claims and assertions by various parties. The Company assesses such claims and assertions and monitors the legal environment on an ongoing basis with the assistance of internal legal team. The Company records a liability for any claims where a potential loss is probable and capable of being estimated and discloses such matters in its financial statements, if material. For potential losses that are considered possible, but not probable, the Company provides disclosure in the financial statements but does not record a liability in its accounts unless the loss becomes probable.

The following is a description of claims and assertions where a potential loss is possible, but not probable. The Company believes that none of the contingencies described below would have a material adverse effect on the Company's financial condition, results of operations or cash flows.

- a. The Collector of Electricity Duty, Gandhinagar (Gujarat) had issued notices classifying the business activities of the Company as "Storage (HTP-IIA)" instead of "Industrial Undertaking (HTP I)" and hence levied Electricity Duty @ 45% (revised rates @20%) instead of 20% (Revised rate @15%) of the consumption charges. The Company has challenged the legality and validity of the notices by way of writ petitions before the Hon'ble High Court of Gujarat who had quashed the supplementary bill/demand notice and remanded the case back to the Collector of Electricity Duty vide order dated 1<sup>st</sup> July 2014. The Company has made its submissions before the Collector of Electricity Duty, Gandhinagar and same has been resubmitted during the year in fresh hearing. The order is awaited. The total demand till 31<sup>st</sup> March, 2022 is Rs. 8,099 lac (Rs. 7,357 lac as on 31<sup>st</sup> March 2021).
- b. The Collector of Stamps, Bharuch had issued notice to the Company to pay stamp duty @ Re.1 per Rs.1000/ or part thereof of the value mentioned in the Delivery Order of the goods imported through ports in Gujarat pursuant to the amendment to Section 24 of the Bombay Stamp Act, 1958. The Hon'ble High Court of Gujarat has quashed the notice. Stamp authorities have filed Special Leave Petition (SLP) in Hon'ble Supreme Court against the same and the case is pending as on date. The potential liability from the effective date of amendment i.e. 1<sup>st</sup> April 2006 till 31<sup>st</sup> March 2022 on the CIF value would be Rs. 32,719 lac (Rs. 29,514 lac as on 31<sup>st</sup> March 2021).
- c. The Company has received refund of Rs.112 lac, Rs.284 lac and Rs.346 lac from Customs department vide CESTAT order dated 7 November 2013, 9 September 2011 and 31<sup>st</sup> May 2010 respectively mainly pertaining to custom duty on short landing of LNG. The Custom Authorities have filed appeal against the order of the CESTAT with the Hon'ble High court of Gujarat and the outcome of the case is pending as on 31<sup>st</sup> March 2022.
- d. Company has paid custom duty of Rs.959 lac (in relation to short landing of LNG under spot purchase agreement) against the demand order by the tax department. The Company has received favourable order in respect of the above issue from Commissioner (Appeals) and CESTAT. However, the refund of the custom duty has been denied by department and Commissioner (Appeals) on the ground of time barred refund application. The Company has preferred an appeal against the above order with CESTAT and received a negative order. Company filed an WRIT Petition with Hon'ble Gujarat High Court against the CESTAT order, and got favourable ruling. The Company has got refund of the above amount (Rs 959 lac) in June 2020. The department has preferred an appeal with Hon'ble Supreme Court against the order of Hon'ble High court of Gujarat, the outcome of which is pending as on 31<sup>st</sup> March 2022.
- e. The Company had received demand for service tax on vessel hire charges for the period 16<sup>th</sup> May 2008 to 30 September 2009 amounting to Rs.4,005 lac (including Interest). The Company had paid the demand under protest and preferred an appeal before CESTAT against the above demand and received favourable order on 24<sup>th</sup> October 2013. The Company had

(All amounts are in Rupees lac, unless otherwise stated)

received the refund (including interest), however the department had preferred an appeal against the CESTAT order before the Hon'ble Supreme Court, the outcome of which is pending as on 31<sup>st</sup> March 2022.

- f. The Principal Commissioner of service tax has issued order against the Company regarding service tax demand on boil off quantity of LNG during regasification process against which Company has received favourable order from CESTAT. The refund of Rs 689 lac (for the period July 2014 till March 2015) is pending as on 31<sup>st</sup> March 2022 (Rs 5295 lac as on 31<sup>st</sup> March 2021)
- g. Kochi terminal of the Company is having Co-developer status in Puthuvypeen SEZ (PSEZ). As a Co-developer, it is entitled for the tax and duty benefits on the materials/ services received for authorized operation of its Kochi terminal. After exit of only unit (viz GAIL) from this SEZ , PSEZ officials have denied endorsement of certain service invoices on which tax benefits were availed. Total amount of tax benefits availed on such invoices is Rs. 4,776 lac during the period from April 2019 to February 2020. In case invoices are not endorsed, refund of GST/ input credit may be denied to the vendors which may be claimed by some of the vendors from the Company.
- h. The Company has filed Service Tax Refund Application for services availed in the Special Economic Zone for the LNG Terminal at Kochi, amounting to Rs.1,526 lac (as on 31<sup>st</sup> March 2021 Rs.1,526 lac). The Company has received the favourable order from CESTAT for Rs.774 lac, refund of which is pending as on 31<sup>st</sup> March 2022. For balance Rs. 752 lac, the application is pending at Assistant Commissioner level as on 31<sup>st</sup> March 2022.
- i. Contractor has filed claim of Rs. 106,66 lac plus interest and cost of arbitration against the Company in arbitration proceedings (w.r.t. capital works done by it at Kochi) against which the Company has also made certain counter claims. Pending conclusion of final award in the arbitration proceedings, outcome of the claim is not ascertainable, as on 31<sup>st</sup> March 2022.

The Company has got favourable award for sum of Rs 79,28 lac (including interest) in arbitration against the claim raised by contractor (for capital works done by it in Dahej) . Contractor has challenged the award before the Hon'ble Delhi High Court , outcome of which is pending as on 31<sup>st</sup> March 2022.

- j. There are some income tax related matters which are pending at various forum. The potential liability in these case, as on 31<sup>st</sup> March 2022 would be Rs 1,851 lac (Rs. 1,805 lac as on 31<sup>st</sup> March 2021).

### C. Actuarial Assumptions & Plan Assets

#### a) Plan Assets and Actuarial Assumptions - Gratuity

1) Plan assets-Gratuity	31 March 2022	31 March 2021
Funds Managed by Insurer ( investment with insurer)	100%	100%

On an annual basis, an asset-liability matching study is done by the Company whereby the Company contributes the net increase in the actuarial liability to the plan manager in order to manage the liability risk.

#### 2) Actuarial assumptions-Gratuity

##### i) Economic assumptions

The principal assumptions are the discount rate and salary growth rate. The discount rate is based upon the market yields available on government bonds at the accounting date with a term that matches that of liabilities. Salary increase rate takes into account of inflation, seniority, promotion and other relevant factors on long term basis. Valuation assumptions are per following details:

Particulars	31 March 2022	31 March 2021
Discount rate	7.18%	6.98%
Expected rate of future salary increase	7.50%	7.00%

##### ii) Demographic assumptions

	Particulars	31 March 2022	31 March 2021
i)	Retirement age (years)	60	60
ii)	Mortality rates	100% of IALM (2012-14)	
iii)	Ages		<b>Withdrawal rate</b>
	Upto 30 years	3.00%	3.00%
	From 31 to 44 years	2.00%	2.00%
	Above 44 years	1.00%	1.00%

##### iii) Maturity Profile

	Year	Rs in lac
Within 1 Year		45
1-2 Year		80
2-3 Year		76
3-4 Year		52
4-5 Year		91
5-6 Year		79
More than 6 Year		2,119

The company expects to contribute Rs.257 lacs to gratuity fund during next financial year

##### iv) Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

	Particulars	31 March 2022		31 March 2021	
		Increase	Decrease	Increase	Decrease
i)	Discount rate (0.5% movement)	(163)	178	(135)	145
ii)	Expected rate of future salary increase (0.5% movement)	176	(163)	145	135

Sensitivities due to mortality and withdrawals are not material and hence impact of change not calculated.

Sensitivities as to rate of inflation, rate of increase of pensions in payment, rate of increase of pensions before retirement and life expectancy are not applicable being a lump sum benefit on retirement.

### e) Actuarial assumptions -Resettlement Allowance on Retirement

#### i) Economic Assumptions

The principal assumptions are the discount rate & salary growth rate. The discount rate is generally based upon the market yields available on Government bonds at the accounting date relevant to currency of benefit payments for a term that matches the liabilities. Salary growth rate is company's long term best estimate as to salary increases & takes account of inflation, seniority, promotion, business plan, HR policy and other relevant factors on long term basis as provided in relevant accounting standard. These valuation assumptions are as per following details:

	Particulars	31 March 2022
a)	Discounting Rate	7.18%
b)	Salary Increase Rate in future	7.50%

### ii) Demographic Assumption

Attrition rates are the company's best estimate of employee turnover in future determined considering factors such as nature of business & industry, retention policy, demand & supply in employment market, standing of the company, business plan, HR Policy etc as provided in the relevant accounting standard. The attrition rates are considered as per following:

	Particulars	31 March 2022
i)	Retirement age (years)	60
ii)	Mortality rates	100% of IALM (2012-14)
iii)	Ages	<b>Withdrawal rate</b>
	Upto 30 years	3.00%
	From 31 to 44 years	2.00%
	Above 44 years	1.00%

##### B. Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are:

- (a) recognised and measured at fair value and
- (b) measured at amortised cost and for which fair values are disclosed in the financial statements.

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

**Level 1:** Level 1 hierarchy includes financial instruments measured using quoted prices. This includes listed equity instruments, traded bonds and mutual funds that have quoted price. The fair value of all equity instruments (including bonds) which are traded in the stock exchanges is valued using the closing price as at the reporting period. The mutual funds are valued using the closing NAV.

**Level 2:** The fair value of financial instruments that are not traded in an active market (for example, traded bonds, over-the-counter derivatives) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

There are no transfers between level 1 and level 2 during the year.

### Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of quoted market prices or dealer quotes for similar instruments
- the fair value of forward foreign exchange contracts is determined using forward exchange rates at the balance sheet date
- the fair value of the remaining financial instruments is determined using discounted cash flow analysis.

All of the resulting fair value estimates are included in level 2 except for unlisted equity securities and preference shares, where the fair values have been determined based on present values and the discount rates used were adjusted for counterparty or own credit risk.

### Valuation process

The amount invested and fair value of unquoted equity shares as on 31 march 2022 is Rs 0.13 (Rs 0.13 as on 31 March 2021) The fair value is determined using level 3 input i.e. discounted cash flows.

	<b>5,18,156</b>	<b>5,18,156</b>	<b>4,77,628</b>	<b>4,77,628</b>

The carrying amounts of trade receivables, trade payables, capital creditors, cash and cash equivalents, current maturities of long term debt, unpaid dividend, and other payable for capital goods are considered to be the same as their fair values, due to their short-term nature.

The fair values for loans were calculated based on cash flows discounted using a current lending rate. They are classified as level 3 fair values in the fair value hierarchy due to the inclusion of unobservable inputs including counterparty credit.

The fair values of non-current borrowings are based on discounted cash flows using a current borrowing rate. They are classified as level 3 fair values in the fair value hierarchy due to the use of unobservable inputs, including own credit risk.

For financial assets and liabilities that are measured at fair value, the carrying amounts are equal to the fair values.

### II. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- credit risk;
- liquidity risk; and
- market risk

#### Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The committee reports regularly to the board of directors on its activities.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Audit Committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

### i. Credit risk

The Company has made investments in Debt based Mutual Funds. These Mutual funds invests in NCD / Bonds / CP / CD of various companies and banks. In case, the investee company defaults on repayment, such losses may have to be borne by the investors of Mutual funds.

Company generally takes Stand by Letter of Credit (SBLC) from its customers, the exceptions being its Promoters namely BPCL, GAIL, IOCL and ONGC. Option to take SBLC from Promoter is also being explored by the Company.

The Company establishes an allowance for impairment that represents its estimate of expected credit losses in respect of trade and other receivables. Basis the evaluation, the management has determined that there are credit impairment loss on the trade and other receivables.

The gross carrying amount of trade receivables is Rs. 2,68,444 lac (31 March 2021 – Rs. 1,87,474 lac).

During the period, provision amounting to Rs 3035 lac for doubtful debts as on 31 March 2022, has been netted off against trade receivables. The Company management also pursue all options for recovery of dues wherever necessary based on its internal assessment. A default on a financial asset is generally when counterparty fails to make payments within 365 days when they fall due.

Opening balance	21	178
Changes in loss allowance calculated at life time expected credit losses	3,014	(157)
<b>Closing balance</b>	<b>3,035</b>	<b>21</b>

### ii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at local level in accordance with practice and limits set by the Company. These limits vary by location to take into account the liquidity of the market in which the entity operates. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies , considering the level of liquid assets necessary, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

#### (a) Financing arrangements

### iii. Market risk

Market risk is the risk that changes in market prices – such as commodity prices (LNG), foreign exchange rates and interest rates – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

#### a) Price risk

To protect the company from fluctuation of commodity prices, same are passed through to the off-takers in long term contract. In spot or short term contract, they are generally pass through to the customers except in few cases, up to 2 cargo load, where the company keeps the commodity price risk with themselves to take benefit from market fluctuation.

#### b) Currency risk

PLL imports LNG mainly from Qatar and Australia through long term chartered vessels. The foreign exchange involved in making payment to LNG suppliers, loading port charges and shipper is recovered from off-takers / customers under sale contract, both long term and short term. Company does not take any exposure on account of currency in Foreign Currency Loans by parallelly taking derivatives to hedge against the the foreign exchange fluctuation on loan, if any. In respect of other payments on account of repair and capex of plant, operating expenses of plant and corporate offices etc. same are monitored on a regular basis to keep the open position at an acceptable level.

#### Exposure to currency risk

The Company's exposure to currency risk is as follows:

##### As at 31 March 2022

	USD	EUR	GBP

### Sensitivity analysis

A reasonably possible strengthening (weakening) of the INR against all other currencies at 31 March would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables (in particular interest rates) remains constant.

#### Impact of 10% movement in foreign exchange conversion rate

	Profit or loss, net of tax		Equity, net of tax	
	Strengthening	Weakening	Strengthening	Weakening
<b>31 March 2022</b>				
USD	33,992	(33,992)	33,992	(33,992)
EUR	113	(113)	113	(113)
GBP	2	(2)	2	(2)
<b>31 March 2021</b>				
USD	31,322	(31,322)	31,322	(31,322)
EUR	15	(15)	15	(15)

#### c) Interest rate risk

The Company's main interest rate risk arises from long-term borrowings with variable rates, which expose the Company cash flow to interest rate risk. Company policy is to maintain most of its borrowings at fixed rate using interest rate swaps to achieve this when necessary especially if the borrowing is made in foreign currency. Company has some amount of loan taken from International Finance Corporation, which is at variable rate. The Company ensures that such amount is kept at an acceptable level. The investment of surplus funds made by company in debt based of mutual funds is also subject to this risk. Company makes investment in a manner which minimises such risk and also takes regular feedback from the market experts on such investments. The Company has also given loans to India LNG Transport Company (No. 3) Limited, Malta which is at Bank Rate and any change in Bank Rate will impact the earnings.

#### Exposure to interest rate risk

The interest rate profile of the Group's interest-bearing financial instruments as reported to the management of the Group is as follows.

	Nominal Amount	
	31 March 2022	31 March 2021
Variable-rate instruments		
Financial assets		
- Loan	2,145	2,122
Financial liabilities		
- Variable rate borrowing	2,300	6,440
	<b>4,445</b>	<b>8,562</b>

	31 March 2022		
	Average interest rate	Balance	% of total loans
Financial Asset : Loan	4.25%	2,145	100%
Financial Liability: IFC "A loan"	5.42%	2,300	100%

	31 March 2021		
	Average interest rate	Balance	% of total loans
Financial Asset : Loan	4.39%	2,122	100%
Financial Liability: IFC "A loan"	5.40%	6,440	100%

## Notes to the Consolidated Financial Statements for the year ended 31 March 2022

(All amounts are in Rupees lac, unless otherwise stated)

### Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss, and the Company does not designate derivatives (interest rate swaps) as hedging instruments under a fair value hedge accounting model. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

### Cash flow sensitivity analysis for variable-rate instruments

A reasonably possible change of 100 basis points in interest rates at the reporting date would have increased (decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

	Profit or loss, net of tax		Equity, net of tax	
	100 bp increase	100 bp decrease	100 bp increase	100 bp decrease
<b>31 March 2022</b>				
Variable-rate instruments	(1)	1	(1)	1
<b>Cash flow sensitivity (net)</b>	<b>(1)</b>	<b>1</b>	<b>(1)</b>	<b>1</b>
<b>31 March 2021</b>				
Variable-rate instruments	(32)	32	(32)	32
<b>Cash flow sensitivity (net)</b>	<b>(32)</b>	<b>32</b>	<b>(32)</b>	<b>32</b>

A change of 100 basis points in interest rates would have increased or decreased equity by Rs. 1 lac after tax (Previous year Rs. 32 lac). This analysis assumes that all other variables, in particular foreign currency exchange rates, remain constant.

### 58 Capital management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital on a yearly basis as well as the level of dividends to ordinary shareholders which is given based on approved dividend policy.

The board of directors seeks to maintain a balance between the higher returns that might be possible with higher levels of borrowings and the advantages and security afforded by a sound capital position.
